WALKER Neil

I have lived in Brookton since 1965 and enjoyed farming and being involved in many community event, sport and shire.

I am married to Kate and we have two daughters, one of which now manages the family farm.

I have enjoyed my time serving on council and being part o Brookton's evolution over the years.

THE success of a small community is governed by the amount of involvement each individual has. That sense of ownership after successful events like the Motor Show. When I reflect on all the busy bees, sport and stage shows that I have been involved in over the years I recall a great feeling of mateship and satisfaction.

I believe that Brookton has a great future and that I can still contribute to that future.

Neil Walker
