In addition to my farming and transport background, I am also an experienced engineer, with a strong foundation in problem-solving, equipment maintenance, and practical innovation.

My combined knowledge of engineering and heavy industry has allowed me to approach challenges with a balance of technical skill and real-world practicality.

For the past four years, I have been based in Brookton, where I continue to stay connected with the local community.

I currently serve as Secretary of the Brookton Men's Shed, supporting local initiatives and helping provide a space for connection, learning, and community development.
