

PHEOC BULLETIN #22

Tuesday 11 August 2020 14:00 Hours

This bulletin has been authorised by the PHEOC Coordinator, Dr Revle Bangor-Jones

COVID-19 Case numbers

- As of **11 August 2020**, there have been **642** confirmed cases of COVID-19 notified in Western Australia (WA) and **28 historical cases**. **630** people have recovered.
- To date **276,579** COVID-19 tests have been conducted in WA.
- **WA:** [Daily snapshot](#)
- **National:** [Current National Status](#)
- **Worldwide:** [WHO Situation Reports](#) & [WHO Dashboard](#)

Changes to Reporting

WA has changed the way cases of COVID-19 are reported, bringing WA reporting closer into line with other Australian jurisdictions. As of 1 August 2020, daily reporting includes only confirmed cases diagnosed by molecular diagnostic methods including samples from nose and throat swabs.

Historical cases (diagnosed through a blood test and indicative of infection in the past) are no longer infectious and present no risk to the community. Historical cases have been removed from the State total. The Department continues to publish historic cases on its website. See media statement regarding changes to data reporting [HERE](#)

Living with COVID

Hotel & Accommodation Providers (with guests in isolation)

People who are required to comply with isolation protocols in hotels and other accommodation should be provided with support and care during this time. All guests who are required to isolate are to be managed in the same respectful and supportive manner, and the status of all guests MUST remain confidential.

- If hotel and accommodation management require support to review and implement best practice infection prevention measures, please contact the Infection, Prevention and Control (IPC) team at pheoc@health.wa.gov.au
- For the full suite of protocols and recommendations, please see [Hotel/Accommodation Fact Sheet](#)

Aged Care [FAQs](#)

There are any mandatory restrictions on visitors to Residential Aged Care Facilities (RACFs) in WA. These are specified in the [Visitors to Aged Care Facilities Directions \(NO 3\)](#)

Phase 5 date postponed

The tentative date for Phase 5 has been postponed until Saturday, 29 August. See the [WA Roadmap](#)

Victoria and NSW Update

Given the serious situation in Victoria and New South Wales, Western Australia's border with the east coast has been further tightened. See [Travel To WA](#)

No one will be allowed into Western Australia if they have been in Victoria or New South Wales in the previous 14 days, unless they meet new exemption requirements. Please see the [FAQs](#) for the border rules that apply to Victoria and NSW.

VICTORIA – Victoria declared a State of Disaster as at 6.00pm 2 August. See [Premier's Statement](#) for further details.

As at 10 August 2020, Victoria has reported 14,957 cases of COVID-19, with 322 being reported from the previous day. Of these cases, 2,863 may indicate community transmission. 228 people have now died in Victoria from coronavirus. Victoria currently has 7,869 active cases and 6,642 people have recovered. Media release with further details can be viewed [HERE](#).

WA, along with other states and jurisdictions, continues to support Victoria by providing expert advice and remote contact tracing. Currently, the WA Victorian Assistance Team is contact tracing up to 40 cases a day, conducting detailed new case interviews and providing advice on isolation requirements. In addition, any close contacts that are identified are called and given information on quarantine and welfare support. Each case will often have many close contacts that require follow up.

NSW – As at 10 August 2020, NSW has reported 3,686 cases of COVID-19, with 14 being reported from the previous day. Of these cases, 1,561 may indicate community transmission. NSW has recorded 52 deaths. See further NSW information [HERE](#).

Community

Regular testing of interstate freight drivers

National Cabinet and the WA Government agreed to a code of practice for regular testing of interstate freight drivers. The [Transport, Freight and Logistics Directions](#) come into force at midnight on Thursday 13 August; any truck driver entering Western Australia will need to show evidence of having received a negative COVID-19 test result in the last 7 days.

If they have not been tested in the last 7 days, they will be directed at the WA border to present for a COVID-19 test within 48 hours.

Presentation for testing Directions (NO 4)

The updated [Presentation for Testing Directions](#) come into effect at midnight on Thursday 13 August. From this date, all interstate arrivals will be subject to a requirement to present for testing on Day 11 after arrival in WA. This is in addition to any testing requirements in place for interstate arrivals from Victoria or NSW.

Cap on international arrivals to Perth Airport extended

The cap on international arrivals to Perth Airport has been extended until 24 October 2020.

The cap was introduced on 12 July 2020 and limits the number of international passengers entering Western Australia to 525 per week, or about 75 a day.

DETECT schools' program

The school research project forms part of the [DETECT program](#). View the complete list of participating schools [here](#).

To date **8,297** tests have been performed on school staff and students with zero positive cases. **69%** of the tests have been conducted in the metro area with the median age being 13 years old. 14% of all tests have been conducted with people aged ≥ 18 .

Portable isolation anterooms

The McGowan Government has bolstered Western Australia's emergency preparedness for COVID-19 with 10 portable isolation anterooms. Six of the anterooms will be deployed to keep regional and remote Western Australians safe from the spread of infectious diseases, including COVID-19.

A further four portable anterooms will be held in a central location for deployment to WA metropolitan hospitals, if necessary. The portable anterooms will be deployed to WA Country Health Service locations including: Derby in the Kimberley; Carnarvon and Geraldton in the Midwest health region; Esperance in the Goldfields; Katanning in the Great Southern; and Collie in the South-West. Given the portable nature of this specialised equipment, the anterooms can be transported quickly to other sites if required.

Directions Updates

COVID-19 [State of Emergency Declarations](#) and [Community Advice](#) summarises the latest COVID-19 Directions that are in place in WA. Further information can be found on [WA Government website](#) and the [Directions FAQs](#)

Quarantine (Closing The Border) Amendment Directions (No 3) (see [HERE](#))

Aged Care Facilities – Changes have been made effective 8 July 2020 (see [HERE](#))

Presentation for Testing Directions (3) have been introduced as at 19 July 2020 (see [HERE](#))

Exempt Traveller Approval (Indian Ocean Territories) (see [HERE](#))

Quarantine and Isolation (Undiagnosed) Amendment (see [HERE](#))

Testing

General population testing criteria (see [HERE](#))

Any person may be tested if they have any one of the following clinical criteria: fever ($\geq 37.5^{\circ}\text{C}$) **OR** history of fever (e.g. night sweats, chills), without a known source **OR** an acute respiratory infection (e.g. shortness of breath, cough, sore throat), **OR** acute loss of smell or taste.

This is especially important for people with any of the following epidemiological criteria:

- anyone who lives or works in a high-risk setting with direct patient contact (e.g. healthcare, aged care or residential care)
- contacts of a confirmed or probable case
- people returning from outside WA in the last 14 days or who have lived/ travelled through an area with elevated risk of community transmission
- where clinical and public health have determined a hospitalised patient with non-specific signs of infection is at increased risk of COVID

Testing locations

Testing locations are listed on [Healthy WA](#).

Reporting

Notify suspected COVID-19 cases by completing the notification form either [ONLINE](#) or by printing out the notification form.

Series of National Guidelines (SoNG)

The latest iteration was released on 31 July 2020. (see [HERE](#))

Business and Industry

See latest updates about how the Western Australian Government is supporting business and industry economic recovery through COVID-19 [HERE](#).
