1.3 COUNCIL BRIEFING FORUMS

Objective

To provide policy to guide the conduct of Council Briefing Forums (CBF) to ensure compliance with the intent of the *Local Government Act 1995*, and the principles of open and accountable decision making.

CBFs will broadly follow the suggested format proposed by the Department of Local Government Operational Guidelines (Number 5 January 2004). The role of such forums is to allow opportunity for elected members and senior officers of the Council to come together outside of the formal meeting process to discuss matters that

- do not require formal decisions,
- might be conceptual (brain storming etc.),

- informative (updates on progress with matters); or
- administrative in nature.

Policy

CBFs are held on the first Thursday of each month (excluding January), normally 2 weeks prior to the Ordinary Council meeting.

CBFs are informal, non-decision-making forums that involve Councillors, the Executive Leadership Team, other Officers as invited by the CEO and, where applicable and invited by the CEO, external consultants or members of the public. They are not open to the public.

CBFs are designed to propose, discuss and formulate philosophies, ideas, strategies and concepts for the future development of the local government and the district.

5. Significant projects, revenue-raising requirements and expenditure needs
6. The development of strategic, planning, management and financial documents;
7. providing updates and advice on Shire of Brookton operational matters

Such forums often involve projects that are in the early planning stage and are sometime away from being formally presented to Council for a decision.

The CBF will be recorded in CBF Notes that will include including attendance, brief description of matters addressed and any follow up actions required and the declarations of any interest made. Any documents and presentations made at a Concept Forum are for internal purposes only and are not intended for public distribution.

Guidelines

The Agenda for a CBF will be provided to Councillors by the Friday prior to the CBF.

The Shire President is to be the Presiding Member. If the President is unable or unwilling to assume the role of presiding member, then the Deputy President may preside. If the Deputy President is unable or unwilling, Councillors may select one from amongst themselves to preside.

As Council's meeting procedures do not apply for CBFs it is the responsibility of the Presiding Member to ensure the good conduct of the meeting. The Presiding Member shall:

- a) Encourage all Councillors present to participate in the sharing and gathering of information;
- b) Ensure that all Councillors have a fair and equal opportunity to participate; and
- c) Ensure the time available is sufficient enough to allow for all matters of relevance to be identified.

All Councillors and Officers shall disclose their Interests on any item on the agenda at CBF. When disclosing an Interest the following will apply:

1. An Interest is to be disclosed in accordance with the Act and Regulations.

- Interests declared at Concept Forums will be recorded in the Register of Interests required under Section 5.88 of the Act.

Declarations of interest will be recorded in the CBF Notes.

Councillors have the opportunity to request matters to be included on the CBF Agenda for consideration at a future forum by request to the Chief Executive Officer ~~of by request during the forum.~~

CBF Notes shall be kept during the forum, however, as no decisions are made, the CBF Notes will only be a general record of items covered, including, attendance, brief description of matters addressed and any follow up action required. A copy of the CBF Notes will be provided to Councillors.

1.17 HABITUAL OR VEXATIOUS COMPLAINTS

Objectives

1. To identify situations where a complainant, either individually or as part of a group, or a group of complainants, might be considered to be ‘habitual or vexatious’ and ways of responding to these situations.
2. This policy is intended to assist in identifying and managing persons who seek to be disruptive to the Council through pursuing an unreasonable course of conduct.

Background

Habitual or vexatious complaints can be a problem for Council staff and members. The difficulty in handling such complainants is that they are time consuming and wasteful of resources in terms of Officer and Member time and displace scarce human resources that could otherwise be spent on Council priorities. Whilst the Council endeavours to respond with patience and sympathy to all needs of all complainants, there are times when there is nothing further which can reasonably be done to assist or to rectify a real or perceived problem.

Definitions

- **Habitual** means ‘done repeatedly or as a habit’.
- **Vexatious** means ‘denoting an action or the bringer of an action that is brought without sufficient grounds for winning, purely to cause annoyance to the defendant’.

Policy

1. For the purpose of this policy, the following definition of habitual or vexatious complainants will be used in the repeated and/or obsessive pursuit of:
 - a) Unreasonable complaints and/or unrealistic outcomes; and/or
 - b) Reasonable complaints in an unreasonable manner.
2. Where complaints continue and have been identified as habitual or vexatious in accordance with the criteria set out in the attached document (Schedule A), the CEO following discussions with the Shire President and Manager Corporate and Community will seek agreement to treat the complainant as a habitual or vexatious complainant and for an appropriate course of action to be taken. The attached schedule (B) details the options available for dealing with habitual or vexatious complaints.
3. The CEO will notify complainants in writing of the reasons why their complaint has been treated as habitual or vexatious, and the action that will be taken. The CEO will also notify the Council Members that a constituent has been designated as a habitual or vexatious complainant.
4. Once a complainant has been determined to be habitual or vexatious, their status will be kept under review after one year and monitored by the CEO with reports being taken to Council as required. If a complainant subsequently demonstrates a more reasonable approach, then their status will be reviewed.

Schedule A – Criteria for Determining Habitual or Vexatious Complaints

Complainants (and/or anyone acting on their behalf) may be deemed to be habitual or vexatious where previous or current contact with them shows how they meet one of the following criteria:

Where complainants:

1. Persist with a complaint notwithstanding the Council's complaints process has been fully and properly implemented and exhausted.
2. Persistently change the substance of a complaint or continually raise new issues or seek to prolong contact by continually raising further concerns or questions whilst the complaint is being addressed. (Care must be taken, however, not to disregard new issues which are significantly different from the original complaint as they need to be addressed as separate complaints).
3. Repeatedly dismiss documented evidence given as being factual or deny receipt of an adequate response in spite of correspondence specifically answering their questions, or do not accept that facts can sometimes be difficult to verify when a long period of time has elapsed.
4. Repeatedly do not clearly identify the precise issues which they wish to be investigated, despite reasonable efforts of the Council to help them specify their concerns, and/or where the concerns identified are not within the remit of the Council to investigate.

5. Regularly focus on a trivial matter to an extent which is out of proportion to its significance and continue to focus on this point. It is recognized that determining what is a trivial matter can be subjective and careful judgment will be used in applying this criteria.
6. Have threatened or used physical violence towards employees or elected members at any time. This will cause personal contact with the complainant and/or their representative to be discontinued and the complaint will, thereafter, only be continued through written communication.

Any complainant who threatens or uses actual physical violence towards employees or elected members will be regarded as a vexatious complainant. The complainant will be informed of this in writing together with notification of how future contact with the Council and the Administration is to be made.

7. While addressing a registered complaint have had an excessive contacts with the Council placing unreasonable demands on the organisation and its employees. A contact may be in person, by telephone, letter, email, text or social media. Judgment will be used to determine excessive contact taking into account the specific circumstances of each individual case.
8. Have harassed or been verbally abusive on more than one occasion towards employees dealing with the complaint or elected members. Employees and elected members recognize that complainants may sometimes act out of character in times of stress, anxiety or distress and will make reasonable allowances for this. Some complainants may have a mental health disability and there is a need to be sensitive in circumstances of that kind.
9. Are known to have recorded meetings or face-to-face/telephone conversations without the prior knowledge and consent of other parties involved.
10. Make unreasonable demands on the Council and its employees, and fail to accept that these may be unreasonable, for example, insist on responses to complaints or enquiries being provided more urgently than is reasonable or within the Council's complaints procedure or normal recognized practice.
11. Make unreasonable complaints which impose a significant burden on the human resources of the Council and where the complaint:
 - Clearly does not have any serious purpose or value; or
 - Is designed to cause disruption or annoyance; or
 - Has the effect of harassing the public authority; or
 - Can otherwise fairly be characterized as obsessive or manifestly unreasonable.
12. Make repetitive complaints and allegations which ignore the replies which Council Officers have supplied in previous correspondence.

Schedule B – Options for Dealing with Habitual or Vexatious Complainants

The options below can be used singularly or in combination depending on the circumstances of the case and whether the complaint process is ongoing or completed.

1. A letter to the complainant setting out responsibilities for the parties involved if the Council is to continue processing the complaint. If terms are contravened, consideration will then be given to implementing other action as indicated below.

2. Decline contact with the complainant, either in person, by telephone, by fax, by letter, by email or any combination of these, provided that one form of contact is maintained. This may also mean that only one named officer will be nominated to maintain contact (and a named deputy in their absence). The complainant will be notified of this in person.
3. Notify the complainant, in writing, that the Council has responded fully to the points raised and has tried to resolve the complaint but there is nothing more to add and continuing contact on the matter will serve no useful purpose. The complainant will also be notified that the correspondence is at an end, advising the complainant that they are being treated as a habitual or vexatious complainant and as such the Council does not intend to engage in further correspondence dealing with the complaint.
4. Inform the complainant that in extreme circumstances the Council will seek legal advice on habitual or vexatious complaints.
5. Temporarily suspend all contact with the complainant, in connection with the issues relating to the complaint being considered habitual or vexatious, while seeking legal advice or guidance from its solicitor or other relevant agencies. This may result in the complainant being advised that all further contact is to be directed to the Shire's solicitor.

Identifying KMP, their close family members, possibly close family members and entities controlled or jointly controlled by any of them.

- a) KMP: Close attention should be paid to the organisational structure of the Shire and Council itself to determine who has authority and responsibility for planning, directing and controlling the activities of the Shire, either directly or indirectly. - i. Councillors;
 - ii. Chief Executive Officer;
 - iii. Manager of Infrastructure and Assets (MIA)

- iv. Manager of Corporate and Community Services (MCC); and
 - v. Works Coordinator
- b) Close family members and possibly close family members of KMP: These are family members who may be expected to influence, or be influenced by, that person in their dealings with the Shire and include but is not limited to:
- i. That person's children and spouse or domestic partner;
 - ii. Children of that person's spouse or domestic partner; and
 - iii. Dependants of that person or that person's spouse or domestic partner.

The following table may assist in identifying close family members and possibly close family members.

- i. power over the entity;
 - ii. exposure, or rights, to variable returns from involvement with the entity; and
 - iii. the ability to use power over the entity to affect the amount of returns.

To jointly control an entity there must be contractually agreed sharing of control of the entity, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

Identifying information about the related parties and related party transactions

For the purposes of determining related parties and related party transactions as per above, elected Council members and KMP, will be required to complete Related Party Disclosure Declaration forms for submission to the Financial Services area. All information contained in a disclosure return, will be treated in confidence.

In all instances if any uncertainty exists regarding the status of a transaction or party it is advisable to make the requisite disclosure, the Financial Service area will be able to assess and confirm the nature of the transaction.

If a Councillor believes a transaction or relationship may constitute a related party transaction or relationship but is uncertain and is not comfortable with disclosure, the CEO can be notified. The CEO will be able to obtain resolution from the Manager Corporate and Community Services (MCC) regarding the status of the transaction or relationship.

If an Employee believes a transaction may constitute a related party transaction, they must notify the Manager Corporate and Community Services (MCC) who will discuss the matter with the CEO to confirm whether the transaction falls within the scope of this policy.

Establishing systems to capture and record the related party transactions and information about those transactions

The Related Party Disclosures - Declaration forms attached to the Related Party Information Collection Notice must be completed by all Council members, the CEO and all other KMP who were elected or employed at any time during the financial year.

Declarations will be required:

- a) quarterly and
- b) at points of resignation or appointment of KMP e.g. prior to any ordinary or extraordinary election.

The Executive Governance Officer will be responsible for the maintenance of a register that captures all the related party transactions of KMP.

Identifying the circumstances in which disclosure is required

In assessing materiality (quantitative and qualitative), management will consider both the size and nature of the transaction, individually and collectively. Management will apply professional judgement to assess the materiality of transactions disclosed by related parties for their subsequent inclusion in the financial statements.

It should be noted that the disclosure requirements apply to the existence of relationships regardless of whether a transaction has occurred or not. For each financial year, the Shire must make an informed judgement as to who is considered to be a related party and what transactions need to be considered, when determining if disclosure is required.

Determining the disclosures to be made about those items in the general-purpose financial statements for the purpose of complying with the AASB 124.

Generally, related party disclosures in the annual financial reports are reported in aggregate and as such, individuals are not specifically identified nor a specific transaction. Management is required to exercise judgement in determining the level of detail to be disclosed based on the nature of a transaction or collective transactions and materiality.

Individuals may be specifically identified, and separate disclosure may be necessary for an understanding of the effects of related party transactions on the financial statements, if the disclosure requirements of AASB 124 so demands.

The purpose of the Code of Conduct is to guide the decisions, actions and behaviours of Council Members, Committee Members, and Candidates for election as a Council Member. A breach of the Rules of Conduct (as per Division 4 of the Code of Conduct) is a minor breach under s5.105(1) of the LG Act and is not the intended subject of this Policy.

The objective of this Policy is to deal with matters relating to breaches of the behaviour requirements in Division 3 of the Code of Conduct, and all complaints under this Policy should be made with that objective in mind. Consequently, complaints such as the following are inappropriate to be dealt with under this Policy:

- a) Complaints made with the intent of addressing personal grievances or disagreements; and
- b) Complaints made to express dissatisfaction with a Council or Committee Member's lawfully made decisions or performance of their role; and
- c) Minor breaches under s5.105(1) of the *Local Government Act, 1995*; and

Where a complaint has been considered by the Complaints Officer and the Council in accordance with this Policy, but the complainant refuses to accept the decisions and actions, as outcomes of the complaint, the Chief Executive Officer (or Complaints Officer) may advise the complainant, in writing that no further consideration will be given to complaints of any kind, that is the same, or substantially the same, and raises no new matters for consideration, when compared with previous communications. If the Complainant has agreed to participate in mediation, the Complaints Officer will ask the Respondent if they are also willing to participate in accordance with clause 6.8 of this Policy.

6.8 Mediation

The Shire of Brookton recognises that mediation may support both parties reaching a mutually satisfactory outcome that resolves the issues giving rise to the complaint. Mediation requires the consent of both parties to the complaint and may not be appropriate in all circumstances. To commence the process, the Complaints Officer will, as the first course of action upon receiving a complaint, offer the Complainant and the Respondent the option of Mediation.

If both parties agree to participate in Mediation, the Complaints Officer will:

- a) pause the formal process and will appoint a suitably qualified and experienced Complaint Mediator within a reasonable period; and
- b) provide written notice of the appointment to the Complainant and the Respondent.

The objective of Mediation will be to reach an agreed resolution that satisfies the Complainant that the formal process is no longer required, allowing them to withdraw the Complaint, in accordance with clause 6.3 of this Policy.

If Mediation is commenced, both the Complainant and Respondent may decline to proceed with the process at any time. The process may also be terminated on the advice of the

Complaint Mediator. If Mediation is terminated or does not achieve an agreed outcome that results in the withdrawal of the complaint, the Complaints Officer will resume the formal process required under this Policy.

6.9 Order of Complaints

Complaints will normally be dealt with in the order in which they are received. If more than one complaint is received that relates to the same alleged behaviour, the Complaints Officer may decide to progress those complaints concurrently.

6.10 Appointment of Complaints Assessor

If Mediation is not commenced, is terminated or does not achieve an agreed outcome resulting in the withdrawal of the Complaint, the Complaints Officer:

- a) will engage a suitably licenced, qualified and experienced Complaints Assessor within a reasonable period; and
- b) will provide written notice of the appointment to the Complainant and the Respondent.

6.12 Assessment of the Complaint

The Complaints Assessor will undertake an assessment of the Complaint in accordance with the process outlined in the Notices given under clause 6.4 and 6.7 of this Policy.

The Complaints Assessor must ensure that the Respondent is provided with a reasonable opportunity to be heard before forming any opinions, or drafting the Complaint Report, drafting of a proposed Action Plan, and proposed recommendations for Council's consideration.

- include recommendations on each decision that may be made by the Council.
- include reasons for each recommendation, with reference to Part 7 of this Policy.

If the Complaint Report recommends that an Action Plan is prepared and implemented in accordance with clause 12(4)(b) of the Code of Conduct and clause 3.12 of this Policy, the Complaint Report must include the proposed Action Plan. The Complaints Assessor will liaise with the Behaviour Complaints Officer to include the Complaint Report and all other relevant information in the agenda for a meeting of Council. The Complaints Officer will be responsible for preparation of an Officer Report which will be a confidential report to Council. The recommendations of the Complaint Report will be provided as the Officer Recommendation(s).

This Child Safe Awareness policy is one of the ways Shire of Brookton demonstrates its commitment to being child safe and a zero-tolerance approach to child abuse.

This policy aims to reduce the risk of harm and child sexual abuse in our communities by encouraging child safe environments to be created and maintained. The Shire of Brookton is committed to encouraging local organisations to be child safe and ensure children are safe and empowered.

This Child Safe Awareness policy has been developed in response to recommendation 6.12 of the Royal Commission into Institutional Responses to Child Sexual Abuse and recognises that the Shire of Brookton is uniquely placed within the local community to demonstrate leadership by supporting organisations to be child safe and to protect children and young people from harm and/or abuse. Definitions

Abuse: Abuse is an act, or a failure to act, towards or on behalf of a child that may result in harm. It can occur on one occasion or multiple occasions. Sometimes the impact of multiple events leads to harm that becomes cumulative in nature. Types of abuse include physical, emotional and sexual abuse, and neglect.

- creates conditions that increase the likelihood of identifying any harm, and
- responds to any concerns, disclosures, allegations, or suspicions of harm. In the context of the Shire of Brookton, this would involve referring concerns to the Department of Communities or WA Police to respond as appropriate.

Implementation of the National Principles for Child Safe Organisations give effect to the above.

Child safe: For the purpose of this policy, child safe means protecting the rights of children and young people to be safe by taking actions that can help prevent harm and abuse.

Harm: Harm, in relation to a child, means any detrimental effect of a significant nature on the child's wellbeing, whether caused by a single act, omission or circumstance; or a series or combination of acts, omissions or circumstances.

Wellbeing: Wellbeing of children and young people includes the care, development, education, health and safety of children and young people.

Policy Principles

- Children and young people are respected, listened to, and informed about their rights.
- Children and young people have the fundamental right to be safe and cared for.
- Children and young people have the right to speak up, be heard and taken seriously without the threat of negative consequences.
- The safety and best interests of children and young people are a primary consideration when making decisions that concern them.

- Access to trusted and reliable information, including the National Principles for Child Safe Organisations, helps support organisations to understand what they must do to help reduce the risk of harm and abuse.
- Communities are informed and involved in promoting the safety and wellbeing of children and young people including protection from harm.

1.26 PUBLIC QUESTION TIME

Objective

The objective of this Policy is to ensure that Public Question Time is an opportunity for residents and others to ask Council constructive questions in an open and respectful manner and to establish procedures for the conduct of Public Question Time during Council Meetings.

Although a local government is required to respond to a question, the Local Government Act does not intend that a local government provides an answer to every question where the question is outside the legislation or deemed unreasonable. There are many circumstances where this may occur i.e. offensive or defamatory questions, questions that relate to the personal affairs or actions of Council Members or Shire employees, questions relating to confidential matters, and identical questions asked that have been satisfactorily responded to previously.

Definitions

Public Question Time is the means by which the public can seek responses from their Council regarding Shire issues that are of concern to them.

Council Meetings includes Ordinary Meetings of Council, Special Meetings of Council and Committee Meetings to which the Council has delegated a power or duty.

Policy

Questions asked at an Ordinary Council Meeting must relate to matters that affect the operations of the Shire of Brookton.

Questions asked at a Special Meeting of Council should relate to the purpose for which the meeting has been called.

Questions asked at a Meeting of a Committee to which the Council has delegated a power or duty should relate to the purpose of that Committee.

The Presiding Member is to decide to accept or reject any question and their decision is final. Where there is concern regarding a question being offensive, defamatory, or the like, the Presiding Member is to make a determination in relation to the question. Questions determined as offensive, defamatory, or the like are not to be published. Where the Presiding Member rules a question to be out of order, an announcement to this effect is to be made at the meeting, including the reason/s for the decision.

Any questions unable to be responded to at the meeting of Council are to be taken on notice. In this case, a written response is to be provided as soon as possible and included on the agenda for the next Council Meeting

All questions and any responses given are to be summarised and included in the minutes of the Meeting.

Public Question Time is limited has a legislative minimum of fifteen minutes. Public question time may be extended at the discretion of the Presiding Member.

It is not intended for Public Question Time to be used as a means to obtain information that would not be made available if it was sought from the Shire's records under Section 5.94 of the Local Government Act 1995 or the Freedom of Information (FOI) Act 1992. Where the response to a question would require a substantial commitment of the Shire's resources, the Chief Executive Officer is to determine that it is an unreasonable impost upon the Shire and refuse to provide it. The Chief Executive Officer is to advise the member of public that the information may be sought in accordance with the FOI Act 1992.

Questions Asked Verbally

1. Members of the public are invited to ask questions at Council Meetings. Members of the public applies to members of the public and not just resident, electors or ratepayers.

 - a. Accept or reject the question and their decision is final;
 - b. Nominate a member of Council and/or Shire employee to respond to the question; or
 - c. Take a question on notice – In the case a written response is to be provided as soon as possible and included in the agenda for the next Council Meeting.

2.4 GRIEVANCES, INVESTIGATIONS AND RESOLUTIONS POLICY

Objective

The objective of this policy is to provide a definition and a framework to investigate and resolve grievances that may arise in at the Shire of Brookton.

Policy

All employees have a right to express any genuine grievances or complaints via an impartial internal process.

All employees involved in a grievance process are expected to participate in good faith. For the purposes of this policy, the term “employee/s” will extend to cover contractors, volunteers and any person performing work for or with the Shire of Brookton in any capacity.

Roles

Complainant – An employee who raises a complaint about a matter regarding the workplace.

Respondent – An employee who is alleged to have acted in a manner which caused the complainant to raise a complaint.

Support Person – A Complainant and/or a Respondent may choose to bring a Support Person with them to a meeting, where practicable. The role of a Support Person is not to advocate on behalf of anyone, but to simply provide emotional support.

Witness – A person (including an employee) who is requested by the Local Government to assist the process by providing relevant information regarding the complaint.

What to do if you have a Complaint?

- a) If an employee (Complainant) is the victim of behaviour of another employee (Respondent) which is inconsistent with the Council’s policies, procedures or guidelines (Policies), the Complainant should, where reasonable or practicable, first approach the Respondent for an informal discussion.
- b) If the nature of the complaint is deemed to be sufficiently serious, the complainant should contact their Manager directly and seek assistance in facilitating an informal discussion.
- c) If the Respondent is the Chief Executive Officer, the grievance can lodged with the Manager Corporate and Community Services (MCC). Any grievance lodged against the Chief Executive Officer is to be dealt with by the Shire President under this policy.
- d) If the inappropriate behaviour continues, the Complainant is encouraged to make a formal complaint to their direct manager. If the direct manager is the Respondent in the matter or if the employee feels uncomfortable approaching their manager, the Complainant should approach any other Manager.
- e) The employee who receives the complaint must contact the Respondents direct line manager (in the case of the Chief Executive officer that is the Shire President) and decide upon the most appropriate way to take the matter forward, whether it is an informal discussion with the Complainant and/or the Respondent, or the commencement of a formal investigation of the complaint.

Key Principles in the Complaint Resolution Process

The following principles are necessary for the fair investigation and resolution of a complaint:

- i) Confidential – Only the employees directly investigating or addressing the complaint will have access to the information about the complaint. The Shire of Brookton may inform or appoint a third party to investigate or advise on the investigation. All parties involved in dealing with a complaint are required to keep the matter confidential. Information will only be placed on an employee’s personal file if they are disciplined as a result of the complaint.
- ii) Impartial (fair/unbiased) – Both parties will have an opportunity to put their case forward. No assumptions are made, and no action will be taken until available and relevant information has been collected and considered.
- iii) Sensitive – The employees who assist in responding to complaints should be specifically trained or equipped to treat all complaints sensitively and ensure the process is free of coercion or intimidation.
- iv) Timely – The Shire of Brookton aims to deal with all complaints as quickly as possible and in accordance with any legislative requirements.
- v) Documented – All complaints and investigations must be documented. In formal grievance processes, records must be kept of all documents collected and/or drafted as part of that process. For more informal processes, a file note or note in a diary may be sufficient.
- vi) Natural Justice – The principles of natural justice provide that:
 - A Respondent against whom allegations are made as part of a grievance process has the right to respond to the allegations before any determination is made.
 - A Respondent against whom an allegation is made has the right to be told (where possible and appropriate) who made the allegation.
 - anyone involved in the investigation should be unbiased and declare any conflict of interest.
 - decisions must be based on objective considerations and substantiated facts.
 - the Complainant and the Respondent have the right to have a support person present at any meetings where practicable.
- vii) Procedural Fairness – The principles of procedural fairness provide that:
 - The Respondent is advised of the details (as precisely and specifically as possible) of any allegations when reasonably practicable.
 - A Respondent is entitled to receive verbal or written communication from the Shire of Brookton of the potential consequences of given forms of conduct, as applicable to the situation.
 - The Respondent is given an opportunity to respond to any allegations made against them by a Complainant.
 - Any mitigating circumstances presented to the Shire of Brookton through the grievance process are investigated and considered.
 - The Respondent has the right to have an appropriate support person present during any inquiry or investigation process where practicable or necessary.
 - Any witnesses who can reasonably be expected to help with any inquiry or investigation process should be interviewed.
 - All interviews of witnesses are conducted separately and confidentially.

Outcome of Making a Complaint

If a complaint is substantiated, there are a number of possible outcomes. If the complaint involves a performance issue, the manager of the Respondent may commence a formal or informal performance management process with the Respondent or elect to discipline the Respondent in accordance with the Disciplinary Policy.

If the complaint involves a breach of a Policy or any other behaviour that is inconsistent with the employment relationship, the manager of the Respondent, in consultation with senior management, may elect to discipline the Respondent in accordance with the Disciplinary Policy.

Vexatious or Malicious Complaints

Where a Complainant has deliberately made a vexatious or malicious complaint that Complainant may be subject to disciplinary action, including but not limited to, termination of employment.

Victimisation of Complainant

A Complainant must not be victimised by the Respondent or any other employee of the Shire of Brookton for making a complaint. Anyone responsible for victimising a Complainant may be subject to disciplinary action, including but not limited to, termination of employment.

Variation to This Policy

This policy may be cancelled or varied from time to time. All Shire of Brookton's employees will be notified of any variation to this policy by the normal correspondence method. 2.5 RISK MANAGEMENT

Purpose

The Shire of Brookton's ("the Shire") Risk Management Policy documents the commitment and objectives regarding managing uncertainty that may impact the Shire's strategies, goals or objectives.

Policy

It is the Shire's Policy to achieve best practice aligned with AS/NZS ISO 31000:2018 Risk management in the management of all risks that may affect the Shire, its customers, people, assets, functions, objectives, operations or members of the public.

Risk Management will form part of the strategic, operational, project and line management responsibilities and where possible, be incorporated within the Shire's Integrated Planning Framework.

The Shire's Senior Management Group will implement and communicate the Risk Management policy, objectives and procedures, as well as direct and monitor implementation, practice and performance.

Every employee, Elected Member, volunteer and contractor within the Shire is recognised as having a role in risk management.

Consultants may be retained at times to advise and assist in the risk management process or management of specific risks or categories of risk.

Definitions (from AS/NZS ISO 31000:2018):

- *Risk* means Effect of uncertainty on objectives.

Note 1: An effect is a deviation from the expected – positive or negative.

Note 2: Objectives can have different aspects (such as financial, health and safety and environmental goals) and can apply at different levels (such as strategic, organisation-wide, project, product, or process).

- *Risk Management* means Coordinated activities to direct and control an organisation with regard to risk.
- *Risk Management Process* means systematic application of management policies, procedures and practices to the activities of communicating, consulting, establishing the context, and identifying, analysing, evaluating, treating, monitoring and reviewing risk.

Objectives

- Optimise the achievement of the Shire's vision, experiences, strategies, goals and objectives.
- Provide transparent and formal oversight of the risk and control environment to enable effective decision making.
- Enhance risk versus return within our risk appetite.
- Embed appropriate and effective controls to mitigate risk.
- Achieve effective corporate governance and adherence to relevant statutory, regulatory and compliance obligations.
- Enhance organisational resilience.
- Identify and provide for the continuity of critical operations.

Risk Appetite

- The Shire defined its risk appetite through the development and endorsement of the Shire's Risk Assessment and Acceptance Criteria. The criteria are included within the Risk Management Procedures and are subject to ongoing review in conjunction with this policy.
- All organisational risks reported at a corporate level are to be assessed according to the Shire's Risk Assessment and Acceptance Criteria to allow consistency and informed decision making. For operational requirements such as projects or to satisfy external stakeholder requirements, alternative risk assessment criteria may be utilised, however these cannot exceed the organisation's appetite and are to be noted within the individual risk assessment and approved by the CEO.

Roles, Responsibilities & Accountabilities

Council's role with assistance from the Audit and Risk Committee is to –

- Review and approve the Shire's Risk Management Policy and Risk Assessment and Acceptance Criteria.
- Liaise with Office of the Auditor General in its assessment and reporting on financial statements and performance standards annually.

- Establish and maintain an Audit and Risk Committee under provisions of the *Local Government Act, 1995* with the charter to oversee the identification of relevant risks and associated actions of mitigation across all finance and operational areas.

The CEO is responsible for the allocation of roles, responsibilities and accountabilities. These are documented in the Risk Management Procedures (Operational Document).

Monitor & Review

The Shire will implement and integrate a monitor and review process to report on the achievement of the Risk Management Objectives, the management of individual risks and the ongoing identification of issues and trends.

2.6 COMPLAINTS HANDLING

Objective

The Shire is committed to resolving complaints in a timely, fair and equitable manner.

Policy

This policy covers the Shire's wastewater (sewerage) services, but does not relate to complaints that must be legally addressed in another manner such as the State Administrative Tribunal or under the Whistle-blowers Protection legislation.

Complaints will only be addressed if submitted to the Shire in writing (i.e. letter or email) unless otherwise deemed urgent by the CEO. Anonymous complaints will not be addressed by the Shire.

It is intended that complaints will be addressed within 15 business days from the date the complaint is received, however this will depend on the complexity of the complaint and the legislative parameters that need to be considered.

Guideline

The complaints process is outlined in the following steps:

1. Customers are encouraged to discuss their complaint with the officer of the department which is the subject of the complaint and to attempt to resolve the issue at this level.
2. If the complaint cannot be resolved at the first point of contact the matter will be reviewed by the direct line manager and the complainant will be advised of the outcome in writing.
3. The advice to the complainant in step 2 may include the details of an independent party that the matter can be referred to if still unresolved or the complainant is still not satisfied.
4. Once the matter has been completed the CEO will review the circumstances of the complaint and make any relevant changes to the Shire's operations to lessen the probability of further complaints being raised.

Independent Parties

If the matter cannot be resolved to the customer's satisfaction, they have the right to refer the matter to one of the following independent parties.

2.7 CONTIGUOUS RATING – SHIRE BOUNDARY PROPERTY

Objective

To recognise parcels of land located on the Shire's boundary adjoining other parcels of land in neighbouring shires as contiguous for the purposes of assessing rates.

Policy

It is Council Policy to support the contiguous rating of land zoned "Farming" only where the land is situated in a contiguous position to all other land, and the land is in the same ownership, including when the property crosses a Shire boundary.

The Shire of Brookton relies on Landgate to determine whether parcels of land that are within the Shire's boundary should be contiguously valued as one holding. Landgate uses set valuation principles and court precedent as the basis for determining the validity of claims relating to contiguously valued properties.

For example: a farming property comprising a number of lots/locations all in common ownership and being used as one large holding will normally receive a single value.

The Shire of Brookton recognises that there may be parcels of land located on the Shire's boundary that adjoin other parcels of land in neighbouring shires that are not considered by Landgate because they are separated by shire boundaries. Council considers that the owners of properties that would otherwise be assessed as being contiguous in nature, if they happened to be contained within the one Shire, should be given the opportunity to apply for a concession on their rates within the Shire of Brookton.

The owners of properties that fit the below criteria must apply for a concession from Council each and every year that they wish to have their properties assessed. A detailed application form will be provided for this purpose, on the request of the property owner.

The property owner must be able to prove that all relevant parcels of land meet all of the following requirements:

- Contiguous (touching) with contiguously rated properties in neighbouring shire(s);
- All properties are held in the same ownership; and
- All properties are used for the same purpose.
- The property in the Brookton Shire must be rated at the minimum rate. The property owner must provide the following documentation for assessment: •

- Completed Shire of Brookton Rates Concession Application Form;
- Copy of relevant Shire of Brookton rates notice(s) (current year); and
- Copy of relevant adjoining shire rates notice(s) (current year).

The property owner will be required to pay the whole of the current year rates relating to the relevant Brookton property prior to a concession being awarded.

The concession will be calculated by deducting the amount that would otherwise be payable on the relevant property if it were contiguously rated by the relevant neighbouring shire from the amount that has been assessed/paid in the current year with the Shire of Brookton.

Applications for Contiguous Rating – Shire Boundary Concession must be submitted to the Shire of Brookton by the last instalment date of the current rating year. A rates refund will be processed to the ratepayer or as a credit on the property assessment, as indicated on the application form, before the end of the current financial year.

All other regular claims for contiguously valued properties held within the Brookton Shire boundary should be directly with the Shire of Brookton and will be assessed with the assistance of Landgate.

The policy looks to ensure that operational and administrative costs and the risks associated with credit card use are minimised while providing cardholders with a convenient method of purchasing goods and services on behalf of the Shire.

Policy Definitions

- "Credit Card" is defined as a facility allowing the cardholder to pay for goods and services on credit.

Shire of Brookton Purchasing Cards may be used where it is inappropriate or inconvenient to use the Shire's normal payment systems.

The preference should always be to use the Shire's normal payment systems including purchase systems established with local businesses for purchases of fuel.

The maximum credit limits shall be based on the cardholder's need with Council holding a \$21,500 maximum credit card facility.

The Chief Executive Officer will approve the issue of all Corporate Credit Cards and Fuel Cards. The Corporate Credit Card limits are:

The CESM is only allowed to utilise the Corporate Credit Card for declared emergency requirements and for the purpose of fuel reimbursements as defined under the Local Government Grants Scheme Guidelines.

The CESM is required to seek permission in relation to the expenditure from the Shire's of Pingelly and Corrigin and DFES if required.

CESM reimbursements between third part councils (Pingelly & Corrigin) and DFES will be invoiced through the quarterly payments.

Approved Bankers

The Shire of Brookton's Corporate Credit Cards are to be issued by its transactional banker.

Where purchases are made by facsimile, over the telephone or on the internet, a tax invoice should

be requested to support the purchase along with completion of the Corporate Credit Card Authorisation Form.

If no invoice or receipt is available, as much detail about the transaction should be recorded and used to support the payment when required. (Date, Company, Address, ABN, amount, any GST included).

Accounts and Settlement

The provider of the Purchasing Card will supply the Finance Department area with a statement of account each month.

The monthly statement of account from the provider of the Purchasing Card will be forwarded to each cardholder for certification and for the supply of receipts and tax invoices to support the Shire's claim for the GST component of purchases and services obtained.

Cardholders are to certify that the account details are correct. The Manager Corporate & Community, or, in the case of the Manager Corporate & Community, the Chief Executive Officer, will then review the expenditure before it is returned to Finance Department area for payment.

A purchasing transaction slip is not acceptable to support a claim. A tax invoice should provide a brief description of the goods and services supplied along with the suppliers ABN. The cardholder is to provide the relevant or correct expense account for the expenditure.

The cardholder's certification must be provided within 7 days of receipt and prior to the end of the credit cards settlement period.

Any disputed amounts on the Purchasing Card statement should be brought to the attention of the Chief Executive Officer at the first opportunity by the Manager Corporate & Community.

Card Lost or Stolen

Purchasing cards that are lost or stolen must be reported immediately by the cardholder to the issuing banker/provider by telephone. At the earliest opportunity, written notification must also be given to the Manager Corporate & Community.

Misuse of Purchasing Cards

Cards which show unreasonable, excessive or unauthorised expenditure will be subject to audit and may result in the withdrawal of the card from the cardholder or other penalty.

Recovery of Unauthorised Expenditure

Unauthorised expenditure or expenditure of a private nature that is proved to be inappropriate will be recovered by deductions from the officer's salary.

Internal Audit of the Purchasing Card System

From time to time an internal audit will provide a report on the control, use, viability and adherence to authorised policy and procedures to the Manager Corporate & Community.

Reward/Bonus Points

Where the Purchasing Cards carry rewards or bonus points, usually to encourage the use of the card by the issuing institution, these rewards or points will be accumulated in the name of the Shire of Brookton. The Chief Executive Officer will decide how these points are to be utilised. Under no circumstances are rewards or bonus points to be redeemed for any officer's private benefit.

Return of Cards

When the Chief Executive Officer or other Officer cease to occupy a position that is authorised to be issued with a Purchasing Card (either through internal transfer, retirement, resignation or conclusion of service contract) they must return the Purchasing Card to the Manager Corporate & Community (or in the case of the Manager Corporate & Community to the Chief Executive Officer) at least one week prior to vacating the position so that the card may be cancelled and the account settled.

Finance Department Responsibilities

The Finance Department area's responsibilities in relation to the Shire's Purchasing Cards include:

Financial Hardship

A ratepayer will be considered to be in financial hardship if paying their rates account will affect their ability to meet their basic living needs, for themselves, family or other dependents. The ratepayer has the intention but not the financial capacity to pay.

Financial Hardship Payment Arrangement

An agreement made with a ratepayer who is willing and has the intention to pay but is unable to meet their repayments or existing financial obligations due to serious and/or exceptional hardship or vulnerability.

Statements

(a) Assessment of Financial Hardship

Financial hardship occurs where a person is required to pay rates and service charges that will adversely affect their ability to meet basic living needs for themselves and their dependents. The Shire recognises that circumstances, like COVID19 or a major bushfire event, may increase the occurrence of payment difficulties, financial hardship and vulnerability within the community.

Therefore, this policy is intended to apply to:

- a) all ratepayers experiencing financial hardship regardless of their status, be they a property owner, tenant, business owner etc.; and
- b) where the payment of Shire rates and service charges will affect their ability to meet basic living needs due to exceptional circumstances.

If a person claims to be in financial hardship the Shire may assess the circumstances within ten business days to determine the extent of financial hardship. If the Shire cannot undertake the assessment within this period, the matter may be referred to a financial counsellor for assistance.

(b) Financial Hardship Criteria

While evidence of financial hardship is required, the Council does recognise that not all circumstances are alike, and will therefore take a flexible approach to individual circumstances including, but not limited to, the following situations:

- 1 Recent unemployment or under-employment
- 2 Sickness or recovery from sickness
- 3 Low income or loss of income
- 4 Unanticipated circumstances such as caring for and supporting extended family

Ratepayers are required to provide information about their individual circumstances including their capacity to make some level of payment, and where possible enter into a payment arrangement. The Council will be considerate of all circumstances, applying the principles of fairness, integrity and confidentiality whilst complying with relevant statutory responsibilities.

(c) Payment Arrangements

If the Shire accepts a situation of financial hardship a payment arrangement may be offered (accounting for the specific circumstances) to the ratepayer with solicited input from his or her representative.

Payment arrangements facilitated in accordance with Section 6.49 of *the Local Government Act 1995* are of an agreed frequency and amount. These arrangements will consider the following:

- 1 That a ratepayer has made genuine effort to meet rate and service charge obligations in the past.
- 2 The payment arrangement/schedule will establish a known end date that is realistic and achievable.
- 3 The ratepayer will be responsible for informing the Shire of any change in circumstance that jeopardises an agreed payment schedule.

In the case of severe financial hardship, the Council reserves the right to consider waiving additional charges or interest (excluding the late payment interest applicable to the Emergency Services Levy).

(d) Interest Charges

A ratepayer that meets the Financial Hardship Criteria (above) and enters into a payment arrangement may request a suspension or waiver of interest charges. Applications are required in writing and will be assessed on merit.

(e) Deferment of Rates

Under the Rates and Charges (Rebates and Deferments) Act 1992, eligible and registered pensioners may be able to defer payment of the rates and Emergency Service Levy charges (not that the Emergency Services Levy is a State Government charge). An applicant should register an entitlement with the Shire as soon as they become eligible for a rebate or deferment.

(f) Debt recovery

If the payment arrangement is not adhered to the Shire Administration may commence debt recovery proceedings in accordance with part 2 of the ACCC and ASIC's Debt Recovery Guidelines for Collectors and Creditors, and in accordance the Shire's Debt Recovery Procedures.

However, the CEO will suspend the Shire's debt recovery processes whilst negotiating a suitable payment arrangement with a ratepayer. Where a ratepayer is unable to make payments in accordance with the agreed payment arrangement, informs the Shire and entertains an alternative arrangement before defaulting on the 3rd due payment, then the Shire Administration will continue to suspend debt recovery processes. Then, should a ratepayer not reasonably adhered to the agreed or alternate payment arrangement, at 1st of July of each year the Shire will offer one further opportunity to clear the total debt by the end of the following financial year, subject to reasonable hardship circumstances being demonstrated in writing. Should this not occur debt recovery procedures as prescribed in the *Local Government Act 1995* will be enacted.

(g) Applying for Financial Hardship

The ratepayer is required to submit a Financial Hardship Application provided by the Shire of Brookton.

(h) Review & Assessment Process

The Rates Officer is required to check all information and supporting documentation has been provided and complete the Financial Hardship Checklist.

A ratepayer's application will be reviewed within ten (10) business days and if it meets the policy criteria it will be submitted to the Chief Executive Officer or Manager Corporate and Community for final assessment.

In addition to financial hardship, the following will be considered in assessing the application for a concession under this policy:

Size of debt and span of time over which the debt has accumulated;

- Freehold ownership or mortgaged;
- Sole residence;
- Advertised for lease and/or sale;
- Profile and history of the ratepayer such as; pensioner status, any previous communications, demonstration of historical genuine efforts to pay, and history of default and/or non-responsiveness.

2.15 PROCUREMENT

Objective

The objectives of this policy are to ensure all purchasing activities:

- Demonstrate that best value for money is attained for the Shire,
- Are compliant with relevant legislation including any Acts and Regulations that apply to procurement,
- Are documented and recorded in compliance with the *State Records Act 2000* and associated records and information management policies and procedures as adopted by the Shire from time to time,
- Mitigate probity risk by establishing consistent and demonstrated processes that promote openness, transparency, fairness, and equity to all potential suppliers,
- Deliver sustainable benefits such as environmental, social, and local economic factors in the context of overall value for money assessment; and
- Are conducted in a consistent and efficient manner across the Shire and that ethical decision making is demonstrated.

Policy Scope

This policy encompasses all procurement undertaken by the Shire.

Ethics & Integrity

Misconduct

All employees of the Shire authorised to undertake purchasing activities must:

- Apply accountable and ethical decision-making principles within the work environment.
- Behave in accordance with legislation, the Shire of Brookton Code of Conduct and the Shire of Brookton adopted policies.
- Understand and observe the definitions, guidelines and legislative obligations in the *Corruption Crime and Misconduct Act 2003* and any Auditor General (WA) recommendations or guidelines as issued from time to time.
- Report any information about actual or potentially fraudulent, corrupt, or illegal activities including breaches of the Shire Code of Conduct to the CEO.

Purchasing Principles

The following principles, standards and behaviours must be observed and enforced through all stages of the purchasing process to ensure fair and equitable treatment of all parties:

- All purchases of goods and services must have an allocated Council budget prior to purchase.
- Full accountability shall be taken for all purchasing decisions and the efficient, effective, and proper expenditure of public monies based on achieving value for money

- All purchasing practices shall comply with relevant legislation, regulation, and requirements consistent with the Shire's policies and Code of Conduct.
- Purchasing is to be undertaken on a competitive basis where all potential suppliers are treated impartially, honesty and consistently.
- All process, evaluation and decisions shall be transparent, free from bias and fully documented in accordance with applicable policies, audit requirements and relevant legislation.
- Any actual or perceived conflict of interest are to be identified, disclosed, and appropriately managed.

Value for Money

Value for money is determined when the consideration of price, risk and qualitative factors are assessed to determine the most advantageous outcome to be achieved for the Shire. As such, purchasing decisions must be made with greater consideration than obtaining lowest price, but also to incorporate qualitative and risk factors into the decision.

An assessment of the best value for money outcome for any purchasing process should consider:

- All relevant Total Costs of Ownership (TCO) and benefits including transaction costs associated with acquisition, delivery, distribution, as well as other costs such as but not limited to holding costs, consumables, deployment, maintenance, supplier changeover costs and disposal;
- The technical merits of the goods or services being offered in terms of compliance with specifications, contractual terms and conditions and any relevant methods of assuring quality, including but not limited to an assessment of levels and currency of compliances, value adds offered, warranties, guarantees, repair and replacement policies, ease of inspection, ease of after sales service, ease of communications etc.;
- Financial viability and capability and capacity to supply to the Shire without risk of default (competency of the prospective suppliers in terms of managerial and technical capabilities and compliance history);
- A strong element of competition in the allocation of orders or the awarding of contracts. This is achieved by obtaining a sufficient number of competitive quotations wherever practicable;
- The safety requirements associated with both the product design and specification offered by suppliers and the evaluation of risk when considering purchasing goods and services from suppliers;
- Purchasing of goods and services from suppliers that demonstrate sustainable benefits and good corporate social responsibility; and

Purchasing Requirements

Legislative/Regulatory Requirements

The requirements that must be complied with by the Shire, including purchasing thresholds and processes, are prescribed within state Legislation, state Regulations, this Policy and associated purchasing procedures in effect at the Shire of Brookton.

Purchasing Value Definition

Determining purchasing value is to be based on the following considerations:

1. Exclusive of Goods and Services Tax (GST);
2. The actual or expected value of a contract over the full contract period, including all options to extend; or the extent to which it could be reasonably expected that the Shire will continue to purchase a particular category of goods, services or works and what total value is or could

be reasonably expected to be purchased. A best practice suggestion is that if a purchasing threshold is reached within three (3) years for a particular category of goods, services or works, then the purchasing requirement under the relevant threshold (including the tender threshold) must apply.

Purchasing from Existing Contracts

Where the Shire has an existing contract in place, it must ensure that goods and services required are purchased under these contracts to the extent that the scope of the contract allows. When planning the purchase, the Officer must consult its Contracts Register through the Finance Team in the first instance before seeking to obtain quotes and tenders on its own accord.

Purchasing Thresholds

The table below prescribes the purchasing process that the Shire must follow, based on the purchase value:

Purchase Value Threshold	Purchasing Requirements

Utilising Purchasing Practice When Not Required To Do So

Staff engaged in procurement should ensure that they obtain value for money and be accountable for their actions. If staff have any doubt about whether value for money is being obtained, additional quotes should be sought.

Where it is considered beneficial to the Shire of Brookton, an employee may utilise a purchasing practice to complete a purchase of a value less than the threshold. For example:

- tenders may be called in lieu of seeking quotations for purchases under the \$250,000 threshold; or
- more than three quotations may be sought for a purchase under the \$250,000 threshold; or
- more than two quotations may be sought for a purchase under the \$15,000 threshold.

An exemption from obtaining the required number of quotation between \$1,000 and less than \$250,000 is required to be approved by the Chief Executive Officer after consideration of a written request from the Officer justifying the requirement for an exemption.

Anti-Avoidance

The Shire shall not enter into two or more contracts or create multiple purchase order transactions of a similar nature for the purpose of "splitting" the value of the purchase or contract to take the value of the consideration of the purchase below a particular purchasing threshold.

Emergency Purchases

Emergency purchases are defined as the supply of goods, or services, associated with:

- a) A local emergency and the expenditure are required (within existing budget allocations), to respond to an imminent risk to public safety, or to protect, or make safe, property, or infrastructure assets; or
- b) A local emergency, and the expenditure is required, (with no relevant available budget allocation), to respond to an imminent risk to public safety, or to protect, or make safe, property, or infrastructure assets, in accordance with s.6.8 of the *Local Government Act 1995*, and the *Local Government (Functions and General) Regulations r.11(2)(a)*; or
- c) A State of Emergency is declared under the *Emergency Management Act 2005*, and therefore, the *Local Government (Functions and General) Regulations r.11(2)(aa)*, and *r.11(3)*, apply to vary the application of this policy.

Time constraints, administrative omissions, and errors do not qualify for definition as an emergency purchase. Every effort must be made to research, and anticipate purchasing requirements, in advance and to allow sufficient time for planning and scoping proposed purchases, and to then obtain quotes, or tenders, as applicable.

Records Management

Records of all purchasing activity must be retained in compliance with the *State Records Act 2000*.

Buy Local

As much as practicable, the Shire will:

- Where appropriate, consider buying practices, procedures and specifications that do not unfairly disadvantage local businesses;
- Consider indirect benefits that have flow on benefits for local suppliers (i.e. servicing and support);
- Ensure that procurement plans address local business capability and local content; and
- Provide adequate and consistent information to potential suppliers.

Buy Local Eligibility

- A preference is applicable to locally based contractors and suppliers within a fifty (50) kilometre radius of the Shire of Brookton town centre; and
- To qualify as a local contractor a supplier must have had a permanent office and staff within the fifty (50) kilometre radius for a period of at least six (6) months prior to the closing date of the quotation/tender submission.

Price Preference for Local suppliers/contractors

- A 10% price preference of up to a maximum of \$1,000 in value applies to all goods and services for those supplier(s) that meet the eligibility requirements (as above);
- Where the procurement is for goods and services for a period exceeding twelve (12) months, the 5% price preference of up to a maximum of \$500 shall be applied per annum.

2.16 LEASE, LICENCE AND TENANCY AGREEMENTS

Objective

This Policy seeks to enable responsible management of community assets by use of an equitable methodology for specifying terms, calculating charges, and applying fees applicable to lease, license and tenancy agreements for community groups and other commercial organisations or individual persons by classification.

1. This policy applies to the leasing, licensing tenancy of real property owned, or under the care, control and management of the Shire of Brookton, including Crown Land.
2. Where appropriate, organisations will be granted a lease or license agreement at a subsidised rate in recognition of their perceived benefit to the community, and their ability to pay.
3. All lessees, licensees, and commercial tenants irrespective of classification must have public liability insurance to the value as prescribed by the Shire’s insurer and detailed in the

agreement. Evidence of such is to be presented to the Shire each year during the term of the agreement.

- e) The maximum term for a lease or license agreement is 5 years, with a further 5 year option at the discretion of Council.
- f) The Council (as lessor) will pay costs applicable to preparation and registration of the lease or license agreement.
- g) The organisation or group (as lessee or licensee) will pay for utilities, general wear and tear, and garden maintenance.
- h) The organisation or group (as lessee or licensee) may request a waiver of the local government's planning, building and environmental health application fees.

- d) The organisation or group (as lessee or licensee) will pay annual lease or license rent of \$350.00 (incl. GST).
- e) The maximum term for a lease or license agreement is 5 years, with a further 5 year option at the discretion of Council.
- f) The organisation or group (as lessee or licensee) is to pay 50% of costs applicable to preparation and registration of the lease or license agreement.
- g) The organisation or group (as lessee or licensee) is to pay for all utilities, general wear and tear and garden maintenance as detailed in lease or license agreement.

Level Three

- a) Applies to commercial leases, licenses and tenancy agreements with an individual person, company or organisation that holds an Australian Business Number (ABN), and where due process has been entertained under Section 3.58(3) of the *Local Government Act, 1995* unless an exemption applies under Regulation 30 of the *Local Government (Functions and General) Regulations, 1996*.
- b) Applies to residential tenancy agreements with an individual person, and a company or organisation that holds an Australian Business Number (ABN).
- c) The use must have all relevant statutory approvals, where deemed applicable.

- d) The maximum term for a commercial lease or license agreement is 5 years, with a further 5-year option at the discretion of Council.
- e) The maximum term for a residential and commercial tenancy agreement is 12 months with possible extension at the discretion of the Council, although periodical agreements may be applied at the discretion of the CEO for residential tenancy agreements.
- f) The individual person, company or organisation (as Lessee, licensee or tenant) is to pay for the rental valuation and document preparation, where applicable.
- g) The individual person, company or organisation (as Lessee, licensee or tenant) is to pay market rent as demonstrated and accepted by the CEO, unless otherwise determined by Council through its Schedule of Fees and Charges or by independent resolution.
- h) The individual person, company or organisation (as Lessee, licensee or tenant) is to pay for all utilities, general wear and tear, and garden maintenance as detailed in the lease, license or tenancy agreement.

2.17 PENSIONER REBATES ON COMMERCIAL AND RURAL PROPERTIES

Objective

To set the method of calculation for pensioner and seniors' rebates on properties where there is a curtilage or dual/commercial use such as farming and agricultural properties.

Policy

Section 28(2) of the *Rates and Charges (Rebates and Deferments) Act 1992* provides that:

"Where although land is used as the ordinary place of residence of an applicant or registered person it is not the sole use of that land, the administrative authority may apportion the prescribed charge, and any rebate allowable, according to –

- (a) The extent to which the land is so used as a place of residence; and*
- (b) Any other use on a basis proportionate to the respective uses."*

This provision enables the Shire of Brookton to allow a concession, in an equitable way, to the part of the rates levied relating to the residential use of a commercial property, if the circumstances warrant. For example, a pensioner resides in a house located on land also used for agricultural or farming purposes.

Principles

Concessional rebates are applied in a fair and equitable manner for all concessional ratepayers (ie. Pensioner).

Provisions

A rebate shall only be applied if the resident has demonstrated they are entitled to such rebate by completing the appropriate application form, including provision of their concession details.

Calculations

A Pensioner Declaration Commercial & Farming Properties form is to be completed to identify the percentage of land in use for residential purposes. If the area used for residential purposes cannot be determined, then an arbitrary two (2) hectares is to be used as permitted by the Office of State Revenue.

If the ratepayer is eligible the Finance Officer is to use the following method to calculate the rebate to be applied:

The rates levied are to be portioned based on the respective areas

$$\left(\frac{\text{Area used for residential purposes only (Ha)}}{\text{Total area of property (Ha)}} \right) \times \text{Rates Levied (\$)} = \text{Portion of rates on which a concession can be applied (\$)}$$

For example if the rates levied are \$2,000, the total property area is 60 Ha and the area solely used for residential purposes is 5 Ha on which concession would be applied is as follows

$$\frac{5}{60} \times 2000 = 166.67$$

The concession is to be applied is \$166.67

If the ratepayer is a pensioner, and they are entitled to a 50% rebate, the rebate amount to be claimed from the Office of State revenue would be \$83.33 and senior 25% \$41.67, calculated as follows

Pensioner 50% rebate	166.67 x 0.50 = \$83.33
Senior 25% rebate	166.67 x 0.25 = \$41.67

2.18 COMMUNITY ENGAGEMENT POLICY

Objective

This policy provides the framework and principles for undertaking community engagement to encourage participation and to strive to continuously improve its community engagement methods.

The outcomes and benefits of effective community engagement include:

1. Increased community awareness about services, planning and program delivery.
2. Increased awareness of community views and the issues that should be considered as part of the decision-making process.
3. Increased awareness of the needs, priorities, and diversity of the community, which in turn ensures that service provision and planning functions are aligned appropriately.
4. Increased levels of community ownership and acceptance of decisions.
5. Council and the community working together to address local issues where appropriate.

Statement

Council will:

- Be open and honest about the purpose of any consultation activity to be transparent with its decision-making processes.
- Use a range of approaches to engage community views and enable everyone who is interested to contribute.
- Undertake to make balanced decisions using the outcomes of community engagement, whilst considering other influences such as budget constraints, identified risks, statutory obligations and strategic directions.

Whilst it is not always practical or appropriate to engage the community on all Council decisions, it is crucial that community members are sufficiently informed of major issues, plans, projects and all matters likely to affect them and have opportunities to participate meaningfully in community engagement processes.

Policy

This policy applies to all facets of Council's operations including Council's corporate, land use, strategic and financial planning and daily services and activities.

This policy and the following community engagement principles underpin all of Council's community engagement processes and activities. These will guide Elected Members, employees, contractors and external consultants authorised to act on behalf of Council on best practice in engaging with the Community.

Principles

The following principles are to be applied to all levels of community consultation:

- Use simple language explaining the purpose of engagement premised on potential level of impact on the community, so the duration and level of community engagement can be set.
- Provide all information necessary so the community can make informed statements during the engagement process.
- Encourage broad community engagement to ensure that a diverse range of views and ideas are expressed and considered.

- Maintain transparency and explain the process to be undertaken.
- Engage across a range of diverse groups using a range of communication mediums (e.g. print media, social media, on-line survey etc) depending on the proposal.

Furthermore, the Shire will commence community engagement when:

- The Council resolves to formally engage.
- Community engagement can enhance decision-making, project outcomes or future opportunities.
- There is legislation or policy requiring engagement or consultation.

Level of Engagement

The following matrix applies in determining the most suitable approach relative to the potential or likely “Level of Impact” of a project, plan, service, or action.

As stated in the matrix there are 4 levels of engagement:

- Inform
- Consult
- Involve
- Collaborate

The Shire Administration will not engage community consultation when:

- A final decision has already been made by Council or another agency.
- Council cannot influence a decision by another agency or party.
- The decision to be made concerns a minor operational matter with minimal impact on the community and/or stakeholders.
- Implementing a project or decision that has already been subject to engagement.
- There is insufficient time due to legislative or legal constraints, or urgent safety issues to be addressed.

In these events, the Shire Administration may inform the community why the decision was made without community engagement.

2.19 RATES EXEMPTION FOR CHARITABLE PURPOSES

Objective

The purpose of this policy is to identify a process to be followed when an organisation wishes to apply for an exemption of rates pursuant to Section 6.26 (2) (g) of the *Local Government Act 1995* (the Act), where it is claimed the land is used exclusively for charitable purposes.

This policy provides an equitable basis and administrative framework to assess applications for rates exemptions that is compliant with legislation and guided by best practice.

Scope

This policy applies to charitable and not-for-profit organisations that own land with the Shire of Brookton and are liable for payment of rates.

Policy

Charitable and not-for-profit organisations that own land with the Shire of Brookton and who wish to claim a rates exemption are required to evidence their right to an exemption, and demonstrate the land is used exclusively for charitable purposes.

The key considerations when assessing an application for exemption pursuant to Section 6.26(2)(g) of the Act are:

- The use of the land, not the purpose of the applicant.
- The use must come under the provisions of the *Charities Act 2013*.
- The land must be used exclusively for a charitable purpose.
- The land use must be for a public benefit, where the benefit is available to members of the public generally or a particular section of the public.

When considering Australian case law, the proper test for determining whether land is used exclusively for charitable purposes is:

- if land is used for a dual purpose, then it is not used exclusively for charitable purposes although one of the purposes is charitable; and
- if the use of the land for a charitable purpose produces a profitable by-product as a mere incident of that use, the exclusiveness of the charitable purpose is not thereby destroyed.

Provisions

1. Application for a rates exemption under Section 6.26(2)(g) of the Act

- 1.1 All applications must be made in writing by completing an Application for Rates Exemption Form (Appendix A) and provide any supporting documentation according to the checklist on the application form.
- 1.2. If any information has not been provided or is unclear, the applicant may be required to provide the additional information before the application will be assessed.
- 1.3. If the property is leased, a copy of the lease is required with the application to ascertain if the lessee is liable for payment of the rates in the terms of the lease.
- 1.4. Rates and charges must be paid on time until a determination is made. A refund may be made if the application is successful.
- 1.5. Applicants need to provide clear and concise information regarding the nature of their activities to illustrate eligibility for the exemption to facilitate Council's decision making.

2. Making a Determination

- 2.1. An application will be assessed by the Finance Administration Officer (Rates) and if it meets the criteria to be considered for an exemption, a report will be presented to Council with an officer recommendation to either approve or decline the request.
- 2.2. The applicant must be a registered charity with Australian Charities and Not-for-profits Commission (ACNC) or an incorporated Not-for-Profit organisation.
- 2.3. The applicant must own the property on which rates are levied or be a tenant liable for payment of the rates under a lease.
- 2.4. The land must be used exclusively for charitable purposes, as defined in the Charities Act 2013.
- 2.5. The applicant must not conduct any commercial operation from the property.
- 2.6. The applicant must not hold a liquor licence for the provision of alcohol for sale to the public for profit.
- 2.7. Council may request additional information from an organisation making application if it considers it necessary to do so.
- 2.8. Information requested under clause 2.6 may include, but is not limited to copies of the Constitution of the organisation, recent financial statements of the organisation and information demonstrating precisely how any land that is subject of the application is used.

3. Grant of a Rates Exemption

- 3.1. An exemption shall only be granted if the applicant has demonstrated they are eligible under the relevant legislation, by completing the appropriate application form and providing supporting documentation.
- 3.2. The Council decision will be actioned by the officers and a note will be made against the property assessment.
- 3.3. Applicants will be notified in writing of Council's determination, with correspondence to include details of:
 - a) the date the exemption applies from,
 - b) the relevant section of the Act,
 - c) the review period (i.e. 2 years); and,
 - d) the amount of general rates reversed.
- 3.4. An exemption is only applicable to the rates component of the annual rates and charges. Where exemption from rates is approved, the property will still be subject to the Emergency Services Levy and any other service charges.
- 3.5. If the property has been used for the stated purpose as at 1 July of the relevant financial year, the exemption can be applied from that date and a refund given if rates have been paid prior to the determination.
- 3.6. Where the land use has changed during a financial year, any exemption granted is only applicable from the date of the change.
- 3.7. A partial exemption can be applied where only part of a defined lot is used for a charitable purpose.
- 3.8. The granting of an exemption in any year does not guarantee an ongoing exemption.
- 3.9. All exemptions are to be reviewed at least every two years as part of the annual budgeting process. Where the application is based on a lease that is due to expire, it may need to be reviewed annually.

4. Rejected Applications

- 4.1. Where an application is declined, the applicant has options to challenge the determination.
 - 4.1.1. The applicant may object under Section 6.76 of the Act, on the basis that the land or part of the land was not rateable land.

- 4.1.2. The applicant has the right to appeal a decision made under Section 6.76 to the State Administrative Tribunal (SAT).

5. Roles and Responsibilities

- 5.1 The Manager of Corporate and Community shall be responsible for referring matters to Council in regard to this policy. The Finance Administration Officer (Rates) shall be responsible for ensuring compliance and the day to day operations of this policy.

2.26 CONTRACT VARIATIONS POLICY

Objective

1. To provide guidance to staff on the principles and limitations applicable to the administration of contract variations.
2. This policy is to be read in conjunction with other tender & purchasing policies where relevant.

Policy

Pre-Contract Variations

Pre-contract variations are permitted pursuant to Regulation 20 of the Local Government (Functions & General) Regulations 1996 (the Regulations). If after a Tender has been publicly advertised and a preferred tenderer has been chosen, but before the Shire of Brookton and tenderer have entered into a contract, a minor variation may be made by the Shire. A minor variation will not alter the nature of the goods or services, nor will it materially alter the specification provided for by the initial tender.

In the event the chosen tenderer is unable or unwilling to enter into a contract that contains a minor variation, or if the tenderer and the Shire of Brookton are unable to agree on any other variation to be included in the contract as a result of the minor variation, then that tenderer ceases to be the preferred tenderer. The Shire may then choose the tenderer who submitted the next most advantageous submission.

A minor variation must be authorised by the CEO prior to the commencement of any negotiation.

Post Contract Variations

As per Regulation 21A, if a local government has entered into a contract for the supply of goods or services with a successful tenderer, the contract must not be varied unless:

- a. The variation is necessary in order for the goods or services to be supplied and does not change the scope of the contract; or
- b. The variation is a renewal or extension of the term of the contract as described in Regulation 11(2)(j).

A variation can only be approved by a Shire of Brookton Officer with the relevant delegation (as detailed within the Delegations Register) for the total project cost, not just the variation value. The total project cost is calculated by the initial contract price plus any variation/s.

Shire of Brookton Officers with sub-delegation authority can only approve variations up to 5% of the initial contract cost. Where the variance exceeds 5% of the initial contract cost, the variation/s must be reported to CEO for his/her authorisation. Where the total contract cost exceeds the CEO's delegation (which is 10% of the initial contract cost), the variation must be presented to Council for approval.

Following the issue of a purchase order for the procurement of goods or services, the contract for purchase may be varied where:

- a. The contract enables the contract to be varied, and the variation is in accordance with variation provisions of the contract;
- b. Additional goods or services that were not, or could not have been, foreseen at the time the purchase order was issued are required;
- c. Sufficient funds are available in the appropriate capital or operating budget to meet the additional cost; and
- d. The value of the contract as a result of the variation does not exceed the purchasing limit of the Officer approving the variation.

3.0 DEVELOPMENT POLICIES

3.1 RELOCATED SECOND-HAND BUILDINGS

Objective

2. To provide clear standards as to what constitutes an acceptable type of relocated second-hand building to be used for residential purposes.
3. To ensure the style, construction and design of relocated buildings is in keeping with the character of the surrounding buildings and the locality in general.

Policy

1. Preliminary

Should any part of this Policy be inconsistent with the Local Planning Scheme, the Scheme provisions shall prevail.

Further, this policy does not bind the Council in any respect of any application for Planning Approval, however Council should have due regard to the objectives and provisions of this Policy in determining an application for planning approval.

2. Application

This policy applies to all proposals for the relocation of second-hand buildings (including repurposed buildings) on land situated within the Shire of Brookton.

This policy does not apply to new prefabricated buildings or other new transportable buildings built and re-fitted within an industrial area that have not been previously installed on any other location.

3. Requirement for Planning Approval

3.1. Determination

- Applications for the relocation of second-hand buildings on property within the Shire of Brookton require Council Planning Approval prior to a Building Permit being issued and relocation taking place.
- All applications for the relocation of second-hand buildings will be assessed against this policy prior to a decision being made under the provisions of the Scheme.
- Repurposed Dwelling will not be supported on residential zoned land within the Brookton townsite unless the Council is completely satisfied the final design and presentation accords as a minimum to the existing housing standard and will not be detrimental to the visual amenity and or residential property values in the area.

- In determining the application, Council (or CEO under delegated authority) may approve the application with or without conditions. The Council may also refuse the application should the proposed development not accord with the objectives of this policy.
- Planning approval is valid for a period of two (2) years from the date of approval, during which time a Building Permit must be issued, and development substantially progressed or the approval will lapse.

3.2. Information

All applications for planning approval to relocate a second-hand building must be accompanied by the following prior to consideration:

- Signed and completed Application for Planning Approval Form;
- Photographs clearly showing the four elevations of the building;
- Site plan showing the proposed location of the building and distances from property boundaries, other buildings and any natural features on the property;
- Floor plans, elevations, cross sections, and specifications;
- Certification from a practicing structural engineer that the design and condition of the building is suitable for transportation and re-erection (where the building is a purpose-built transportable building, sufficient documentation proving this will suffice);
- Certification from a registered pest control company that the building is free from termites if of a timber frame construction;
- A statutory declaration that the building is free of hazardous material (including asbestos)
- A Bushfire Attack Level (BAL) assessment if the Building is to be located within a designed Bushfire Prone Area as illustrated on the Department of Fire and Emergency Services mapping website:
<https://www.dfes.wa.gov.au/regulationandcompliance/bushfireproneareas/Pages/default.aspx>

3.3. Need for a Building Permit

Notwithstanding that Council may grant Planning Approval, a Building Permit is generally required to be sought and issued prior to relocation of the building commencing.

3.4. Advertising

An application for a relocated second-hand building within the Brookton townsite may need to be advertised in accordance with Clause 64 of the Planning and Development (Local Planning Scheme) Regulations 2015 where surrounding properties and/or residences may be affected by the relocation of the building taking place.

3.5. Building Inspection

A suitably qualified person (i.e. Structural Engineer or Building Surveyor) is required to inspect the building prior to its relocation in order to ascertain its suitability for relocation.

4. General Provisions

4.1. Minimum Dwelling Standard

If the relocated second-hand building is to be used for residential purposes, the following minimum dwelling standard is required to be provided:

- At least one (1) bedroom separate from the other rooms in the dwelling;
- A lounge/dining area;
- A kitchen; and
- A separate toilet, bathroom & laundry facility.

To be used as a dwelling, the building will be assessed against and must comply with the requirements for Class 1 buildings under the Building Code of Australia.

Buildings that are not designed for predominant use as a dwelling and do not meet the above criteria will not be approved for use as a primary residence.

Mobile park homes will only be considered if the above criteria for minimum dwelling standard is met and the mobile home is consistent with all other relevant requirements of this policy, particularly Section 5.3 relating to amenity.

Second-hand repurposed dwellings (ie dongas) will not be supported within the gazette Brookton townsite.

4.2. Non-Residential Building Standard

Relocated buildings to be used for non-residential purposes will be assessed based upon their suitability for the proposed use, the zone in which they are to be located and against all other relevant provisions of this policy relating to asbestos, amenity and design. If considered necessary, Council will prohibit the use of the building for residential purposes through a condition of approval.

If the relocated building is to be used as an outbuilding, the application will be assessed against the relevant provisions of Council's prevailing Outbuildings Policy.

4.3. Hazardous Materials

Second-hand dwellings must have all hazardous materials (ie asbestos) materials removed prior to relocation taking place. Council will require documentation demonstrating cement sheeting (walls and roof) is hazardous free where the age of the building indicates asbestos hazardous materials may have been utilised in construction.

4.4. Amenity

When giving consideration to an application for planning approval, Council may give consideration to:

- The building in its relocated position being rendered visually acceptable by the use of verandas, screening and / or landscaping;
- The design, scale and bulk of the proposed building being compatible with the type of buildings that exist in the locality in which it is to be located; and
- With respect to the relocation of second-hand buildings within the Brookton Town site, Council may not approve the relocation should the building not be in-keeping to the residential amenity premised on scale, design, materials or general condition.

4.5. Conditions

Council may place a condition(s) on the grant of planning approval if deemed appropriate to ensure the relocated second-hand building meets the objectives of this policy and preserves the amenity of the locality. These conditions may include the following if deemed appropriate by Council:

- The exterior of the building being painted in a manner that is consistent with the colours and styles of the surrounding buildings.

3.2 DEVELOPMENT REQUIREMENTS FOR RURAL SUBDIVISION

Objective

The purpose of this Policy is to outline Council's requirements for subdivision for rural/farming and rural-residential zoned land. Council will from time to time require conditions be placed on a subdivision approval for certain works to be undertaken, particularly relating to road construction and the preparation of fire management plans. Other related matters include drainage, electricity supply and water supply.

Policy**Road Construction**

The following outlines the construction requirements for roads to either serve a subdivision of rural/farming or rural-residential zoned land, or to construct an unmade road reserve in the Shire of Brookton.

Road Types

There are five types of rural and rural residential road types that are identified in the Shire. These are:

- Rural Residential Road
- Major Rural Road
- Standard Rural Road
- Minor Rural Road Type A
- Minor Rural Road Type B

Rural Residential Road applies to new roads (either on an existing road reserve or a road reserve created as part of a subdivision) that are to be constructed to serve a Rural Residential development (Lot sizes normally 2ha – 5ha). Council will require the sealing of Rural Residential Roads serving lots of 5ha or less in area as a reflection of the relatively high traffic volumes that are created by this form of subdivision.

A Major Rural Road is a road that carries large volumes of traffic or connects significant areas of the Shire to other rural areas or the town centre. Sealing of these roads may occur should traffic volumes or use by heavy vehicles warrant this. Existing examples of major rural roads in the Shire are Corberding Road, Brookton-Kweda Road and Copping Road between the Great Southern Highway and the BALCO plant.

A **Standard Rural Road** generally carries moderate volumes of traffic from major roads to farming areas. The majority of existing shire roads would be classified under this category.

A **Minor Rural Road Type A** is a road that has the potential to serve a maximum of 10 farming locations or lots (with lot sizes normally greater than 30-40ha) and is typically a no-through road.

A **Minor Rural Road Type B** is a road that has the potential to serve a maximum of 5 farming locations or lots (with lot sizes greater than 30-40ha) and is typically a no-through road.

Road Reserve Requirements

Where a new road reserve is proposed to serve a subdivision, a reserve width of 25 metres will normally be required, unless topography requires a greater width. In rural areas, lot truncations of 8m will be required for lots on road corners.

Road Construction Requirements

The following outlines the normal construction requirements for each road type. Council reserves the right to determine the standard of road required for each subdivision application or application for construction of an existing road reserve.

Rural Residential Roads

- Road pavement to have a minimum 6.0m wide bitumen seal with 2.0m wide gravel shoulders.
- Seal to be two coat bitumen and aggregate.
- Road construction to be a minimum of 150mm compacted base-course and a minimum 150mm compacted sub-base.

Major Rural Roads

- Pavement width to be a minimum of 10.0m (7.0 roadway, 2 x 1.5m shoulders).
- Can be a gravel road unless otherwise required by Council due to envisaged traffic volumes or the use of the road by heavy vehicles.
- Pavement to be a minimum of 150mm compacted gravel.

Standard Rural Roads

- Pavement width to be a minimum of 8.0m (5.6m roadway, 2 x 1.2m shoulders).
- Pavement to be a minimum of 150mm compacted gravel.

Minor Rural Roads Type A

- Pavement width to be a minimum of 6.0m (4.0m roadway, 2 x 1.0m shoulders).
- Pavement to be a minimum of 150mm compacted gravel.

Minor Rural Roads Type B

- Pavement width to be a minimum of 6.0m (4.0m roadway, 2 x 1.0m shoulders).
- Pavement material to be natural (in situ) where suitable.
- Where gravel is required, pavement to be a minimum of 75mm compacted gravel.

All Roads

- A cross fall of 4% either side of the centreline crown.
- Through horizontal curves, one-way cross fall or super elevation shall be applied in accordance with Austroads publication 'Rural Road Design 1989'.
- Crossovers to be constructed to each property entrance to a design that avoids property access roads draining onto the Shire road.
- Crossovers to be located a minimum of 50m away from intersections and junctions and provide 300m clear sight distance in either direction.
- Piped crossovers to be a minimum width of 9.6m for rural properties and 7.6m for urban properties and to include headwalls.
- Roadside drains to be a minimum of 300mm – 500mm deep with batters having a minimum slope of 1 in 3.

Costs Associated with Road Construction

The construction of roads associated with a subdivision, either on new road reserves or those already existing but not constructed, will be at the cost of the subdivider. This requirement also relates to roads to be constructed for public road access to each new lot in a boundary realignment application (i.e. where no additional lots are created over that existing prior to the boundary realignment taking place).

The proponent may be required by Council to engage a Consulting Engineer to plan, design and supervise the road construction at their cost. The design may include a comprehensive water drainage plan.

A 3% maintenance retention amount is to be lodged with Council for a period of 12 months on roads subject to a subdivision application.

A 1.5% supervision loading is payable throughout the project on roads subject to a subdivision application.

Clearance of Subdivision Condition

Where the subdivider requests Council clear a condition of subdivision relating to road construction prior to the construction having taken place, Council may accept a cash bond that is equivalent to the full estimated construction cost of the road(s). The subdivider will be required to enter into a written agreement with Council for the operation of the bond.

The bond is to be paid to Council, held in trust and may be used by Council to either:

- Design and construct the road(s) itself as a private work; or
- Pay a contractor engaged by the subdivider or the Shire to undertake the works to Council's specifications.

Should there be a residual amount remaining in trust at the completion of the construction, this is to be refunded to the subdivider. Should the trust amount not be sufficient to cover all costs associated with the design and construction of the road(s), the outstanding amount is to be provided by the subdivider.

Drainage

Open drains are permitted for new subdivisions. Stormwater is to be retained on site and not allowed to drain onto a Shire controlled road.

Water

For new Rural-Residential subdivision with lot size of 4ha or less in area, a reticulated potable water supply is required to be provided in accordance with Clause 5.3.2 of Statement of Planning Policy No.11 'Agricultural and Rural Land Use Planning'.

On lots greater than 4ha, an on-site potable water supply will suffice, in accordance with Clause 5.1.4 of the Shire of Brookton Town Planning Scheme No. 4.

Electrical Power

Western Power sets the provision of power as a condition of subdivision. This authority will decide whether the supply is to be under ground or above ground.

Fire Management Plans

Council may require a Fire Management Plan be prepared and implemented for all subdivision of rural land depending on the circumstances in each case. As a requirement the Shire generally adhere to the provisions of WAPC Policy DC 3.7 'Fire Planning'. A notification is to be placed on the titles of each lot created informing each subsequent landowner of the existence of the Fire Management Plan where applicable.

3.3 SEWERAGE CONNECTION FOR SUBDIVISION OF LAND

Objective

The purpose of this policy is to provide direction when apply conditions to subdivision approval in the Brookton Town site in line with the State Government Country Sewerage Policy.

The following sewerage connection conditions apply to all approved applications for subdivision on any lots within the Brookton Town site boundary where the newly created lots cannot accommodate an approved onsite effluent disposal system.

Policy

Prior to Council clearing the conditions imposed by the Western Australian Planning Commission the proponent of the subdivision must, at their cost –

- Provide an easement approved by Council on the Certificate of Title of each lot, as part of the subdivision process, for the future extension of the sewer main. The area required for the easement to be specified by Council in accordance with the requirements of the legislative provisions relating to sewerage scheme extensions.
- Lodge a memorial on the Certificate of Title of each of the newly created lots, notifying subsequent owners that connection to the sewer will only be available when Council deems it necessary or economically feasible to extend the existing sewerage scheme main to the lot.
- Provide written acceptance that future extension of the existing sewerage scheme to the newly created lots is not guaranteed.

3.4 TOWN PLANNING FEES REFUND**Objective**

To provide clear guidelines for the refund of Town Planning Application Fees.

Policy

Where Council has resolved to refuse to grant Planning Approval, any fees that have been paid to Council are not refundable. The applicant is to be made aware that the fee is for the determination of an application, not its approval.

Where a development application has been lodged and is subsequently withdrawn by an applicant or not been processed by the Shire within the statutory time frame, and a request for refund of the planning fees is made, the following refund guidelines will apply:

- a) Where the application has been assessed and determined: no refund.
- b) Where an application has been assessed but not determined: 50% refund.
- c) Where an application has not assessed and determined: 100% refund.

3.5 RESIDENTIAL DEVELOPMENT ON FARMING ZONED LOTS/LOCATIONS WITHOUT FRONTAGE TO DEDICATED AND CONSTRUCTED PUBLIC ROADS**Objective**

This policy is to provide clarity around residential development on farming zoned lots/locations without frontage to dedicated and constructed public roads.

Policy

To comply with Clause 40(2) of the Shire of Brookton's Town Planning Scheme No 4, which states Council shall "require such other arrangements are made for permanent access as shall be to the satisfaction of the Council" the following are minimum acceptable access requirements:

- **Absence of a dedicated public road**
Where there is no frontage to a dedicated public road reserve, the Council will support at the applicant's cost, a carriageway access easement being created, and registered and constructed on the neighbouring title(s) with the respective landowner's consent for the purpose of providing permanent access to the subject property, to the satisfaction of the Shire of Brookton. Where no such formal access arrangement exists, the Council will condition on a formal planning approval this requirement to be met on a 'land locked' parcel of land.
- **Use of an unconstructed dedicated public road**
Where there is a dedicated yet unconstructed road frontage the Council will support at the applicant's cost minimal construction for vehicle access to a 2 wheel drive all weather standard. Such access will need to be compliant with legislative requirements and standards, and be applied for, assessed, and approved by the Shire Administration prior to any construction.

Advice Notes

- Compliance with this policy is not required where direct road frontage is achieved through the creation of a battle-axe lot via subdivision and amalgamation.

3.6 OUTBUILDINGS

Objective

To provide a guide for the assessment and determination of applications for planning approval for outbuildings (sheds/garages) in all zones.

1. BACKGROUND

Under the Shire of Brookton’s Local Planning Scheme No. 4, Planning Approval is may be required for a shed (outbuilding) in some zones.

The Shire’s Local Planning Scheme has no criteria under which an application for an outbuilding is to be determined. As such, the objective of this policy is to give clarity as to what the development standards are in relation to outbuildings within specific land use zones.

2. OBJECTIVES OF THE POLICY

The primary objectives are to:

- 2.1** Limit the impact of outbuildings by specifying maximum areas and height, location, material colour, landscaping and the like.
- 2.2** Ensure aesthetic and amenity impacts on neighbouring properties are considered when determining outbuilding proposals.
- 2.3** Recognize “Sheds” and “Sea Containers” in the Residential and Commercial zones are defined as outbuildings where the floor area greater than 10m². Outbuildings with a floor area of 10m² or less do not require a Planning Approval or Building Permit.
- 2.4** Recognize that outbuildings that accord to the deemed-to-comply provisions of the Residential Design Codes are exempt from planning approval in accordance with Clause 61; Part 7; Schedule 2 of the Planning and Development (Local Planning Schemes) Regulations 2015.

3. POLICY

- 3.1** Ablution facilities within outbuildings will only be approved in accordance with this policy for ‘Farming’ zoned allotments of 10 hectares or more in area to support on farm agricultural activities. In all other circumstances an application for planning approval is to be submitted with accompanying justification for consideration and determination by Council on merit.
- 3.2** The construction of an outbuilding on vacant land in all zones other than the Rural and Rural Smallholdings zones is not permitted without an application for a residence having been approved and construction having first commenced.

- 3.3** Sea containers are only supported as outbuildings for storage purposes in the Residential, Rural Residential, Rural Enterprise, Commercial, and Special Use zones where the applicant can demonstrate the sea container will not have a detrimental impact on the amenity of the property or surrounding area and is not highly visible from the street. Sea containers for storage purposes in General Industry, Light Industry, and Rural zones do not require planning approval.
- 3.4** Within the Residential zone and on lots of less than 2ha in all other Zones, outbuildings other than a carport or garage will not be permitted in the area between the house and the front boundary of the property. Front setbacks for carports and garages in the ‘Residential’ and ‘Commercial’ zones will be subject to the *Residential Design Codes* standards.
- 3.5** This Policy does not apply to large scale agricultural, industrial, and commercial buildings that are assessed against the General Development requirements as presented in Table 5; Schedule 1 of Local Planning Scheme No.4.

Zone	CRITERIA			
	Maximum Total area for all outbuildings on the lot (m2)	Maximum individual area of proposed outbuilding (m2)	Maximum Wall Height (m)	Maximum Roof height (m)
Residential R10 and above	75	75	3.0	4.0
Residential R10 and below	10	75	3.0	4.0
Rural Residential, Rural Enterprise and Rural smallholding	200	150	3.0	4.0
Rural (below 1 hectare)	100	75	3.0	4.0
Rural (between 1 hectare and 10 hectares)	200	150	3.0	4.0

3.7 TREE CROPPING

Objective

The objective of this Local Planning Policy to:

- Achieve a consistent, efficient and equitable system for assessing and approving tree crop applications;
- To align the grant of planning approval by Council with industry guidelines and standards as specified in relevant codes of practice and other documents and ensure a consistent approach to the establishment of Tree Cropping as an acceptable land use;

This policy aims to be consistent and complementary with existing regulations and not to place additional undue burden on landowners and investors wishing to pursue tree crop development.

Policy

Tree crops have the potential to become an important land use in medium to low rainfall agricultural areas in Western Australia (WA). Landholders and private investors are looking to capitalise on emerging opportunities for farm forestry and carbon off set in these regions, diversify income streams and to gain the on-farm environmental benefits that integrated tree crops can provide. Given the increasing opportunities and interest in tree crop development, it is timely for local governments to ensure that these developments are adequately supported and addressed in local planning.

A body of legislation, policy and guidelines relevant to tree crops already exists and a range of government agencies and other stakeholders are involved in regulating and managing tree crop issues.

Additional background information relating to tree crops is provided in the report '*Opportunities and Issues Associated with Farm Forestry in the South East Avon Low Rainfall Region*'.

Definitions

- *Applicant* means a person or entity (e.g. company or organisation) responsible for management of the tree crop. The applicant does not have to be the owner of the trees or the land on which trees are planted (e.g. the Applicant could be a third-party management agency). The applicant is responsible for ensuring adherence to this policy and other relevant legislation and regulations.
- *Tree crop* means trees:
 - Planted with the intent of producing commercial products and carbon off set benefits. Commercial products include all wood and non-wood products and benefits that can be sold to a third party. Wood products are produced when trees are harvested, such as woodchips or sawlogs, while non-wood products and benefits include products such as environmental services; and
 - Under the management of one applicant with an aggregate area greater than 10 hectares in the Shire of Brookton.
- *Landowner* means a person or entity that holds the title to the land.
- *Management Plan* means a plan that provides details on the way in which a tree crop will be developed and managed and aims to demonstrate the means by which the principles of environmental care, cultural and fire management objectives are achieved. Management Plan should include the following components:
 - Establishment plan;

- Plantation Management plan; and
- Fire Management plan.
- *Code of Practice* means practices applied to Timber Plantations in Western Australia 2006, produced by Forest Industries Federation WA, Forest Products Commission Australian Forest Growers, or as revised.
- *Guidelines* means the 'Guidelines for Plantation Fire Protection 2001' produced by the Fire and Emergency Services Authority WA, or as revised.

Areas of Application

This policy applies to land zoned "Rural" in the Shire of Brookton Town Planning Scheme No. 4.

Application and approval requirements

1. When is an application required?

A tree crop development application must:

- a) be submitted and approved prior to the commencement of the development.
- b) have an aggregate area of 10 hectares or greater.

Of note, an application may cover multiple tree crop developments on different titles provided they are under the management of one applicant.

2. Tree Crop Development Application requirements.

In addition to Shire requirements for development applications, an application is to contain the following parts:

- **Registration, which must contain the following information:**
 - Title details of the subject land;
 - Name of the Landowner(s);
 - Name of the Applicant (tree crop manager);
 - Address and contact details of the Applicant;
 - Area (hectares) to be planted and species to be planted; and
 - Signatures of the Applicant and the Landowner(s).
- **Management Plan:**
 - A checklist of information that should be included in a Management Plan is provided in Attachment 2. The checklist is based on the guidelines in the Code of Practice.
 - The Management Plan must address the policy measures described in Section 6 of this Policy.
- **Map which should show the following:**
 - Location of tree crops;
 - Access roads;
 - Structures and buildings;
 - Natural features including native vegetation and water courses; and
 - Other relevant information such as hazards or significant features.

3. Modification to Tree Crop Development Application

An Applicant may modify the existing application addition of new tree crops or expansion of existing tree crops. Additional areas of tree crops may therefore be managed under existing

Management Plans, without the need for the Applicant to prepare a new Management Plan for every new tree crop development. However, the Applicant must ensure that the management measures in an existing Management Plan are relevant to new tree crops and the sites on which they will be developed and meet the requirements of this policy.

If this is not the case the Applicant is required to submit a modified or new Management Plan.

If an Applicant transfers management responsibilities to another organisation they are required to notify the Shire and provide details of the new managing entity.

Additional policy measures

The following policy measures must be addressed in the Management Plan.

A. General tree crop management

The Shire encourages all tree crop developments to be undertaken with appropriate consideration to the specifications and guidelines in the Code of Practice and Guidelines for Plantation Fire Protection.

The Code of Practice provides management goals and operational guidelines to tree managers to “ensure tree crop operations in WA are conducted in a manner that is in accordance with accepted principles for good plantation management, while recognising that a primary aim of tree crops is to be economically competitive and sustainable”.

B. Access and roading

When planning tree crop developments, applicant’s should consider how tree crops will be accessed for management, harvesting and removal of products (if applicable). Potential access roads should be identified on a map to be lodged with the development application.

The harvest and haulage of tree crop products results in ‘wear and tear’ of local roads and other transport infrastructure and the Shire is seeking to minimise adverse effects on local roads within its control, and therefore may impose a financial road contribution to be applied at the time of harvest as a condition of development approval.

C. Fire management

A fire management plan must be included as part of the overall Management Plan.

Any Fire Management Plan must be consistent with Guidelines for Plantation Fire Protection 2011, produced by the Fire and Emergency Services Authority of WA, or as revised. Should the Fire Management Plan not be consistent with the guidelines then the application for development approval may be refused.

D. Subdivision

Any established tree crop development will not be accepted as justification for an application for subdivision, nor any proposed tree cropping or an approved application for tree cropping on any land be deemed a precursor to subdivision of ‘Farming’ zoned land.

3.8 SIGNAGE**Objective**

To enhance the amenity and character of all areas within the Shire of Brookton through the provision of acceptable standards of development for advertisements.

Policy

Signage is considered to have a major impact on the amenity of the Shire, particularly in relation to roadside advertising. Except where specifically exempt under the Shire of Brookton's Local Planning Scheme No. 4 (LPS 4), all advertisements within the Shire require the prior approval of Council. This policy is to provide guidance for the location and desired standards when applications for planning approval are being considered.

1. This policy is for all signage that is visible from outside the property, complex or facility concerned, either from private land or from public places or streets.
2. Should the application be on or adjacent to a Main Road reserve, approval from Main Roads WA is also required.
3. Signs denoting property and/or owner name and/or property address do not require approval.
4. Exempted advertisements, as detailed in Schedule 3 of LPS 4 do not require Planning Approval.
5. Where an advertisement proposal requires approval a development application form shall be used.
6. All advertisements shall comply with the criteria contained in Table 1 of this policy.
7. Approval for the continuation of approved signage requires that a request shall be made to the Shire in writing, prior to planning approval expiring.
8. Temporary candidate signage associated with a local, state or federal election is exempt from this policy and the provisions of the Shire of Brookton Local Planning Scheme No. 4.

3.9 DEVELOPER CONTRIBUTIONS FOR ROAD AND FOOTPATH UPGRADING RELATING TO SUBDIVISION OF LAND

Objective

- To provide a basis for seeking financial contributions to the upgrading of the road and footpath network as a result of the subdivision process.
- To ensure consistency in the recommendations made to the Western Australian Planning Commission on subdivision applications.
- To provide clear and consistent advice to the community on the Shire's expectations for road and footpath upgrading.

Purpose

This policy sets the basis for seeking contributions for the upgrading of the Shire road and footpath network as a result of the subdivision. The policy will allow a consistent approach to be applied to all subdivisions and associated land development

Definitions

'Road' shall have the definition applied to it under the *Road Traffic Act 1974*, which includes any highway, road or street open to, or used by, the public and includes every carriageway, footpath, reservation, median strip and traffic island thereon.

"Footpath" shall mean any land or thoroughfare used by pedestrians and/or cyclists and shall include pathways, dual use paths and any other walkway designed for this use.

Statutory powers

This Policy relates to determinations made by the Western Australian Planning Commission under the *Planning and Development Act 2005*. This Act gives the Commission the power to require developer contributions as part of the subdivision of land.

The objectives of the policy are:

- To promote the efficient and effective provision of public infrastructure and facilities to meet the demands arising from new growth and development.
- To ensure that development contributions are necessary and relevant to the development to be permitted and are charged equitably among those benefiting from the infrastructure and facilities to be provided through the subdivision of land.
- To ensure consistency and transparency in the system for apportioning, collecting, and spending development contributions in line with conditions of subdivision approval.
- To ensure standard of social infrastructure and well-being of communities arising from or affected by new sub divisional development.

This Policy adopts and implements these principles for seeking developer contributions as part of the subdivision process.

Policy

- All applications for subdivision made within the Shire of Brookton, where there is an identified nexus between the requirements for a road and/or footpath upgrade, will be subject to the provisions of this policy. This policy does not supersede or influence any other requirement for developer contributions as part of the subdivision approval process toward other facilities or infrastructure, such as public open space, community facilities, etc.

- In making recommendations to the Western Australian Planning Commission on applications for residential, commercial or industrial subdivision where at least two additional lots will be created from the parent lot/s, the Council will consider seeking a financial contribution to be made towards the upgrading of the footpath network.
- In making recommendations to the Western Australian Planning Commission on applications for residential, commercial or industrial subdivision where there is more than five additional lots to be created from the parent lot/s, the Council will consider seeking a financial contribution to be made towards the upgrading of the road and footpath network.
- Contributions towards the upgrading of the road and footpath network will be based on the standards contained in Table No 1 of this policy. The standards will be reviewed as part of Council's periodic review of the Shire of Brookton's Policy Manual. Thereby allowances can be made for changing community expectations.
- The road and footpath upgrading contribution will be a pro-rata calculation of 50% of the road/footpath as contained in Table No 1, based on the per kilometre / per metre frontage of the parent lot/s to the road. Where a secondary street exists, the Council reserves the right to seek a contribution for the secondary street in addition to the primary street frontage, however the Council will take into account traffic movements and existing rights of entry.
- If a subdivision required that the created lots be provided with constructed road access that does not currently exist, this policy shall not supersede any requirements for the developer to pay the full construction costs to provide this road access.
- Nothing in this policy shall prohibit Council from seeking the construction of a footpath network within a subdivision at the developer's expense.
- In terms of the expenditure of the financial contributions made as part of the subdivision of land, the following principles shall apply:
 - The upgrading of the road network shall comply with the Shire's Works Program; and
 - The upgrading of any footpath network shall occur within three (3) years following the completion of all subdivisions affecting a particular area, or prior to this date as determined by Council.
- The Council may vary the requirements of this policy, where it is considered that full compliance with the policy is not practical, or such variation is warranted in the circumstances of the subdivision.
- This Policy does not apply to roads under the care and control of Main Roads WA.

3.10 STOCKING RATES – RURAL ENTERPRISE, RURAL RESIDENTIAL AND RURAL SMALLHOLDING ZONE LAND

Purpose

The purpose of this policy is to provide a guide for the assessment and determination of applications for Planning Approval involving the keeping of livestock on properties zoned *Rural Enterprise*, *Rural Residential* and *Rural Smallholding*, within the Shire of Brookton.

It is not intended that this policy be applied rigidly, but that each application be examined on its merits, with the objectives and intent of the policy the key for assessment.

Objectives

The objectives of the policy are to ensure that the keeping of livestock:

- is undertaken in a sustainable manner.
- does not have a significant negative impact on the natural environment.
- does not impact detrimentally on the health and/or amenity of adjoining landowners.

Background

As a result of their size, certain types of properties necessarily invite rural lifestyle and associated land uses inclusive of low-key stabling and training of horses, rearing and agistment of animals, etc. An assessment of these types of land uses in the subject area meet the definition of a '*rural pursuit/hobby farm*' as per the Shire of Brookton Local Planning Scheme No. 4.

The Shire recognises that the majority of landowners manage their properties in a sustainable manner, however, the keeping of livestock on smaller properties requires a higher level of management than broad acre farming due to the higher density of animals and closer proximity of neighbouring landowners which results in a higher potential for both environmental and amenity impacts. The Shire recognises that unsustainable land management practices often lead to land degradation problems such as soil erosion, dust nuisance, odour, water pollution and damage to vegetation.

This *Stocking Rates Policy* endeavours to guide Council when considering applications for planning approval when livestock is going to be kept, as part of a *rural pursuit/hobby farm* land use on properties in the specific zones. It also enables Council to appropriately condition planning approvals for '*rural pursuit/hobby farm*' land uses so as to protect the amenity of the locality.

Application of Policy

The policy is only applicable to land zoned *Rural Enterprise*, *Rural Residential* and *Rural Smallholding* within the Shire of Brookton.

In terms of the Shire of Brookton Local Planning Scheme No 4, a '*rural pursuit/hobby farm*' land use is not permitted on any *Residential zoned* property.

Basis for Policy

The Stocking Rates Guidelines of the Department of Agriculture and Food of Western Australia (*Stocking Rate Guidelines for Rural Small Holdings, 2000*), has been used as the basis for this policy. These guidelines provide a scientifically sound and practical means by which the appropriate stocking rate for land within the subject area can be determined and provide guidelines for the assessment of applications for the stocking of land.

Stocking Rates

Definition of Stocking Rate:

For the purposes of this Policy, stocking rates are defined and shown as Dry Sheep Equivalents (DSE) which is the number of adult sheep (wether) that can be sustained on each hectare all year round.

Stocking rates are the number of stock, e.g. sheep, cattle, horses, emus or other type of animal that can consistently be kept on a piece of pastured land all year round with minor additional feed and without causing environmental degradation. Environmental degradation can include wind and water erosion, tree decline, increasing levels of nutrients in groundwater and waterways, the spread of weeds into adjoining bushland and soil structure decline.

Stocking rates are largely based on the amount of pasture that each particular type of animal will consume, but are also influenced by feeding patterns, animal weight, foot structure and activity.

Base stocking rate & Animal Equivalents

The base stocking rate is the number of DSE that would apply to a property with the lowest level of pasture management in an average year. The recommended base stocking rate should:

1. Provide enough feed to maintain animals in good condition.
2. Avoid soil erosion by providing enough pasture cover to protect the soil throughout the year (at least 30% ground cover – hay, sawdust, etc.).
3. Be sustainable through average years.

In consultation with the *Department of Agriculture and Food of Western Australia*, a Base Stocking Rate for the Shire of Beverley (and by extension the Shire of Brookton), has been determined to be **5 DSE per hectare**. This Base Stocking Rate has been determined taking due cognisance of amongst others the annual average rainfall and length of the growing season.

Figure 1. Example Site Plan (not to scale)

Key Elements of example site plan – calculating the DSE for the above property:

- Parent Lot = 4.5 ha;
- Fencing the remnant vegetation, including a small swamp;
- Revegetating a 30 metre buffer to a seasonally flowing stream;
- Exclusion of house, shed, tracks and garden area (inclusive of fire break for shed and house);
- Leaves 3.5 ha of useable paddocks.

Calculated DSE:

5 DSE (Base Stocking Rate) x 3.5 ha (available paddock area) = **17.5 DSE**

Fencing

Appropriate fencing shall be made a Condition of Planning Approval for the keeping of livestock, with the following standards given as a guideline:

1. SHEEP AND SMALL STOCK: 5 - 7 strand/line ring-lock, or similar
2. CATTLE: 7 strand/line with electric fence*
3. HORSE: 7 strand/line ring-lock or similar with “sighter” strands or electric*

* *Non-lethal electric fencing systems shall be installed and operated as per the relevant Australian Standard (AS/NZ 3014) and shall be installed so as to be on the inside of the subject property, and offset from the fence, with appropriately spaced warning signs, as shown in the samples in Figure 2.*

Figure 2**SAMPLE OFFSET ELECTRIC FENCE CONFIGURATION & WARNING SIGN****Managing Wind Erosion Risk**

Responsible grazing management is required, especially over summer, to maintain sufficient ground cover to reduce the risk of wind erosion. The ideal level of ground cover to minimize wind erosion is for about 50% of the soil surface to be covered by grass and pasture plant residues. At least 30% of the ground cover needs to be anchored to prevent soil being moved downwind during strong wind events. Grazing has to be managed so that it does not detach all of the pasture residues and the critical level of ground cover percentage is 30%. Once the amount of ground cover falls below 30% then wind erosion is likely to occur. Livestock should be removed from all paddocks once ground cover falls to 30%. In the case of horses, they should then be kept in a stable or small yard and hand fed to substitute for paddock feed. These paddocks should not be grazed again until new green pasture starts growing and ground cover is more than 30%.

Requirement for a Property Management Plan

Council will only consider applications for Planning Approval for a *rural pursuit/hobby farm* land use in excess of the Base Stocking Rate, where applicants submit a Property Management Plan which demonstrates that pasture improvement, nutrient and waste management methods are addressed.

Where it is proposed to keep livestock in excess of the base stocking rate, the following measures should be incorporated into the property management plan (where applicable):

- Drainage management practices that prevent direct runoff to watercourses or dams;

- Yards or pens should be sheeted with compacted soil, sand or sawdust if located on clay soils and should be regularly cleaned;
- Adequately fenced vegetation belts capable of effectively separating environmental features such as watercourses, from areas of intensive stocking; - Manure should be regularly collected;
- Supplementary feeding as a means of reducing grazing pressure;
- Areas of remnant vegetation, wetlands and watercourses should be fenced to exclude livestock;
- Where stables or other structures are proposed to be constructed for the housing of livestock, they must be located and managed so as not to detrimentally impact on the amenity of neighbouring residences;

4.8 ASSET MANAGEMENT POLICY

Background

The community relies on the Shire of Brookton to deliver services. The Shire has finite resources and limited income streams to fund the delivery of these services which need to be aligned with the Community's aspirations identified via the Strategic Community Plan.

To ensure that resources are optimally allocated, decisions need to be made in an informed manner considering the acquisition, ongoing ownership, management and disposal of assets. The Shire also needs to continuously consider whether it needs to provide and/or own assets in order to deliver services or whether it can simply facilitate the provision of the service by a third party.

Scope

This policy covers all service delivery of the Shire of Brookton and relates to the management of assets under the care, control and responsibility of the Shire. The Policy applies to all physical assets and their components with a useful life of more than one year, and a replacement value of greater than \$5,000 which require management by the Shire.

Physical assets include:

- Land
- Buildings
- Infrastructure
- Furniture and equipment
- Plant and equipment
- Cultural collections

Objective

The key objective of this policy is to ensure that there is an organisation-wide commitment to Asset Management which enables the Shire to meet its service delivery objectives efficiently and effectively, in a way that ensures:

4.9 GRAVEL, SAND AND CLAY SUPPLIES AND PIT REHABILITATION POLICY

Objective

To ensure that at all times, the Shire has sufficient materials and arrangements in place to meet the needs of road maintenance and construction programs. This will be achieved by:

1. Ensuring access to an adequate supply of high-quality road building materials.
2. Ensuring that an effective rehabilitation program is in place; and
3. Ensuring that all facets of these transactions are transparent and compliant with relevant legislation.

Policy

Access to Material

Council recognises that in order to access gravel, sand or clay it needs to pay a fair price and abide by its own policies and local laws. To this end, Council will undertake the following:

1. Approach the landowner at least four weeks prior to the time that the works are due to commence, to advise the landowner of the Shire's intention, advise of compensation and to enable the landowner to make any domestic arrangements in relation to stock, etc.
2. All pits opened on private property will be reclaimed before the plant shifts to the next programmed job, unless firm arrangements are made with the landowner for not reclaiming.
3. If the area is required for dam catchments, all topsoil shall be stock piled, or removed if suitable for road building.
4. If required by the land holder, the area shall be fenced, and suitable gates fitted to the fenced area, at the Shires expense.

Staff will report to Council on the purchase of gravel, sand and clay.

9. All transactions are to be in accordance with relevant legislation and include a written agreement, detailing all aspects of the proposed transaction, including rehabilitation of the quarry/pit. No works are to occur prior to the signing of the agreement by both parties.

10. The private works in Part 10 above may only be carried out on the property from which material has been extracted and is subject to plant availability. Any works scheduled are to be performed during the budgeted financial year and are not to be carried over.

13. Upon meeting all requirements of the Agreement in Part 7 (Access to Material) the Manager Infrastructure and Works shall ensure the landowner is adequately satisfied by way of a signed acceptance letter.

Pit Rehabilitation

The Shire recognises and accepts that pit rehabilitation is necessary to avoid soil compaction, decrease surface drainage, avoid erosion and minimise visual pollution.

1. In general, prior to opening a pit, a management plan of the site will be prepared which will include rehabilitation and monitoring.
2. Private operators are also required to submit for approval and abide to a pit management plan, which includes rehabilitation and monitoring, before establishing a pit.
3. Wherever possible, new pits will be established on cleared land, not existing bushland and not be located on a road verge.
4. Where necessary, the visual impacts of an operating pit will be minimised through the establishment of buffers between the pit and visual vantage points.
5. Where necessary, the dust and noise impacts of an operating pit will be minimised through the establishment of buffers between the pit and neighbours.
6. Throughout the life of the pit, topsoil, overburden and vegetation will be stockpiled separately ready for respreading in the rehabilitation process.
7. If weeds have developed on the topsoil mounds these will be removed prior to respreading the topsoil.
8. If necessary, drainage structures will be established within the pit, to reduce any ponding and/or surface erosion.
9. Rehabilitation will be done progressively throughout the life of the pit; and
10. The site will be monitored every year for three years after closure of the pit. If after three years, rehabilitation is considered inadequate, appropriate measures will be undertaken to bring the pit up to the appropriate rehabilitated standard.

Bush Sites

Where a proposed pit is located within bushland, the following will apply:

1. Reference to the *Environmental Protection (Clearing of Native Vegetation) Regulations 2004* and obtain the necessary clearing permits.
2. Prior to opening a gravel pit, seed from local endemic species will be collected from the site and stored for use in the revegetation phase of rehabilitation.
3. The general process of rehabilitation will be:
 - a. Rip the floor of the pit at 1 one metre intervals across the contour.
 - b. Shape the ripped pit so that the surfaces are as smooth as possible.
 - c. Batter the edges down to blend in with the landscape with the batter slopes no steeper than 4H:1V.
 - d. Return the overburden, and the topsoil to the pit.
 - e. Then cross-rip the site at one metre intervals on the contour to encourage plant growth and
 - f. Return all vegetation and debris to the pit.
4. Seeds collected prior to pit establishment should be scattered on the site at the time of year suited for germination (varies with location) if establishment from respreading vegetation has been inadequate. If a store of seeds is not available, seed from local endemic species should be collected from surrounding areas; and
5. If required by the landowner and the pit is located on farmland, it will be fenced to exclude stock to help ensure adequate regeneration at the Shire's expense.

Pastured Sites

1. Prior to establishment of the site, the landowner will be asked how they want the site rehabilitated.
2. For sites to be rehabilitated back to pasture the general process of rehabilitation will be:
 - a. Rip the floor of the pit to a depth of at least 50cm along the contour.
 - b. Shape the pit so that the surfaces are as smooth as possible, and edges are battered down to blend in with the landscape.
 - c. Return the overburden and then topsoil to the pit and
 - d. Pasture seed will be spread.

Abandoned Pits

1. As part of its annual budget deliberations, Council will determine an amount specifically for the rehabilitation of abandoned pits. This will take into account, a works program to ensure that over time, all abandoned pits are rehabilitated to a satisfactory level.
2. The method for rehabilitation will not change from that mentioned in the section on current pits.
3. If fill is no longer available, spoil from roadworks etc. will be used. Topsoil, if no longer on site, will be carted to the area to ensure regeneration will be satisfactory; and

4. The site will be monitored every year for three years after rehabilitation works. If rehabilitation is inadequate, appropriate measures will be taken to ensure success.
